Contents

Thanks to the compliance of our offer of products and services with the needs of our clients, well-set processes and the diligent work of our employees, we have achieved a growth in the market share.

Ing. Zita Zemková
CEO
and BoD Chair of OTP Banka Slovensko, a.s.

DEAR SHAREHOLDERS, BUSINESS PARTNERS AND CLIENTS,

Thank you for your trust manifested during the whole year, which, in terms of business conditions in the banking sector, we consider very difficult. As to the bank of our size, the market of low interest rates in the field of loans and legislative measures in the field of fee policy significantly affected management during the year.
The refinancing of banks especially in relation to retail loans after the adoption of legislation enabling the premature repayment of loans has significantly decreased the profitability of retail housing loans during the year. Despite the fact that the bank has granted the historically highest volume of retail loans, for which I have to thank all colleagues, the bank`s balance sheet stagnated.
The bank compensated the reduction of interest income from retail loans by a significant decrease in interests on term deposits and a successful restructuring of deposits in favour of current account deposits.
I consider the bank`s results in the field of the granting of business loans a success. The maximal effort exerted especially at the end of the year gives good foundations for the next business year. By making use of the EIF and EBRD programmes, the bank supported big and medium-sized enterprises and micro-entrepreneurs as well. In addition to traditional banking services, the bank started again to provide factoring transactions and it started to develop trade finance products at the end of the year.
The bank was looking for areas of higher income from fees and therefore we have intensified cooperation with Groupama insurance company and IAD investment company.
Projects implemented in the field of the bank`s digitisation strategy - especially mobile banking

projects, new corporate banking and the launched process changes aim to provide the bank`s clients with higher level services as before.
In 2016 we continued to renew and expand our branches, which we want to continue in 2017. We would like to focus mainly on fields that have potential to acquire new clients and we would like to test a new type of point of sale - so-called light branch.
We were strictly managing the bank`s operating costs during the year. Despite the introduction of new technologies requiring additional costs, the level of annual costs is lower than in 2015 and operating costs per employee are among the lowest in the sector.
The year 2016 was the second year of the activity of OTP READY Foundation focused on increasing the educational level of elementary and secondary school students in the field of financial literacy. Teachers and parents highly appreciate and evaluate our effort and therefore we will continue to support and expand these activities.
At the end of the year, the bank, based on the results of monitoring performed by our parent bank, acceded to a conservative evaluation of the further economic development of clients in selected segments, which resulted in additional costs and the bank`s negative economic result.
And what`s next? Despite the negative economic result in 2016, the bank, in business terms, is set to face the market challenges. It has a quality client and product portfolio and professionally capable employees prepared to provide the clients with high-level services. We are ready to be a better bank every day - for our clients, employees and shareholders, of course.

II. EXTERNAL DEVELOPMENT

The slowing dynamics of global economic growth in 2016 was mainly affected by situation on the markets in developed countries and the changing mood on financial markets. Moreover, economic developments in the euro area paid attention to multiple risks in its banking sector. From the point of view of the banks, a faster decrease in long-term interest rates against the short-term ones was the most fundamental factor of increasing uncertainty, which was further strengthened by non-inflationary environment and the ECB`s loose policy. Economic activity in Slovakia continued its favourable developments, while the growth was mainly supported by the developments in net export. The dynamics of the growth of domestic consumption slowed down a little due to public spending and the stagnation of investments. At the end of the year, volatile industrial production, which was unfavourably affected by postponed vacations in several key enterprises, revived. Private consumption was mainly stimulated by the growth of real wages and lower unemployment rate. Employment was growing especially in the wide-ranging industry of services, but also in the key industrial sectors. Following a nearly three-year of continuous decrease in consumer prices in Slovakia, the country returned in December to a positive inflation, which mainly reflects the developments in the prices of energy commodities. In the following period no significant increase in the average value of inflation (slightly above 1 %) is expected, which implies that the profitability of banks remains under the growing pressure of the environment of low interest rates. Therefore, increasing operating effectiveness will be one of the key instruments of both national banking sectors and individual banks in order to maintain their position in competition with alternative providers of banking services.

In the reporting period, the total net profit of banking sector was positively affected by the one-time extraordinary impact of the sale of shares in VISA Europe. Thanks to this, profitability recorded a 6 % increase despite lower net interest income. Legislative decrease of a fee for premature repayment of housing loans from the second half of March lead to an accelerated decrease in net margin from loans granted to the population. Increase in retail loans was characterised by accelerated pace with the emphasis on refinancing and re-negotiation of transactions, while consumer credits were growing more slowly. The corporate loan segment recorded a 6.9 % year-on-year increase. OTP Banka Slovensko, a.s. recorded a 4.8 % increase in this field, especially thanks to the volume of loans granted to the segment of SME and micro-entrepreneurs. As to a year-on-year comparison, a higher rate of the coverage of non-performing loans using provisions was recorded. With regard to the total volume of customer deposits, a year-on-year increase was recorded only in the volume of non-term deposits, term and saving deposits of the population stagnated and business deposits decreased. Interest rates followed a downward trend during 2016 on both the deposit and the loan side.

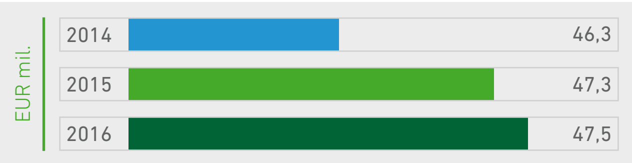
III. BASIC FACTS ON THE BANK MANAGEMENT

- The bank was successful in the transformation of its deposit portfolio in favour of non-term deposits. A managed cash outflow from term deposits was to a large extent successfully replaced with current and savings products. The bank maintained the client`s interest also thanks to the re-design and favourable transactional set-up of products. Increased number of sold packages significantly revived income from fees as well.
- Customer credits, compared to the previous years, were characterised by a slight structural change. The total volume, however, remained almost unchanged. Loans granted to small and medium-sized enterprises and consumer credits strengthened their position within the total volume. In compliance with stricter policy of the assessment of the risk profile of corporate loans at the level of bank group, the bank, in 2016, concentrated on a gradual recovery of its credit portfolio. These measures were also reflected in the amount of the credit risk costs, where the total value of the coverage of impaired loans using provision increased from 51.3 % in 2015 to 61.8 % in 2016.
- Balance sheet total recorded a slight year-on-year increase by 1.4 %.
- The downward trend of interest rates from loans granted to clients continued to have a negative impact on the development of net interest income. Changes in the structure of the fund basis of the bank, however, created a space for the saving of interest costs and net interest income slightly exceeded last year`s level (by 0.5 %).
- Tough competitive conditions, the impact of regulation related to housing loans and the implementation of a basic bank account with limited price were also negatively reflected in the development of net income from fees and commissions, which decreased on the year-on-year basis by 4 %.
- In 2016, the bank`s operating profit was under an intensive pressure of external environment. Situation on financial markets, legislative and competitive constraints and high taxes present for a long time significantly influenced the development of its individual components. The bank achieved a 26 % year-on-year increase especially by means of income from the sale of VISA Europe shares and the strict management of operating costs.

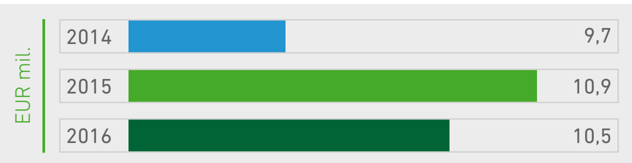
IV. FINANCIAL RESULTS

A. Operating income

1. Net operating income
was achieved by the bank slightly above the level of the previous year, while, based on a year-on-year comparison, interest costs were decreasing faster, especially due to the managed change in the structure of the bank`s deposit portfolio in favour of non-term accounts. A total 9 % year-on-year decrease in interest income was mostly influenced by high volumes of realised earlier repayments and the development of refinancing rates connected with tough competitive and legislative conditions on the market of retail housing loans. Compared to the previous year, there was also a decrease in the appreciation of financial funds on the interbank market. Net interest margin has been achieving a 3.1 % level for the third consecutive year.

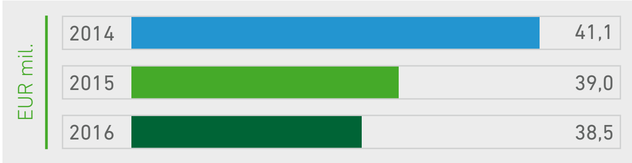


2. Net income from fees and commissions
recorded a 4 % year-on-year decrease mainly due to a new legislative constraint, which from the second half of March of this year, established a maximum amount of fee for earlier repayment of mortgage outside the deadline of the change in fixation at the level of 1 % of the earlier repaid principal. Due to this significant change and also despite the subsequent natural increase of the volume of realised earlier repayments, the total loss of income fees from mortgages exceeded, compared to the previous year, EUR 1 mil. The bank achieved a partial compensation by a successful activation of its current account clientele, especially by introducing new service packages, with special emphasis on more effective client set-up by means of specialised discounts and benefits. The bank also achieved progress in the field of other income fees connected with the expanding offer of supplementary products in the bank`s portfolio and services rendered by means of alternative distribution channels.



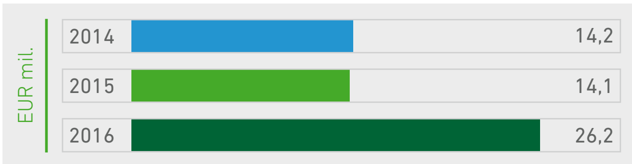
B. Operating costs

decreased by 1.3 % compared to the year 2015.
The bank directed the increasing of the effectiveness of the management of operating costs in 2016 into the fields in which, by means of an effective procurement, it was possible to achieve better prices of the services purchased. In the form of savings, the value added of completed tenders was mostly reflected in the field of banking and telecommunication services, data transfer and energy consumption. Further savings were connected with the persisting positive influence of the termination of physical protection of branches from the half of 2015 and further changes in processes. Compared to the previous year, there was only a minimal decrease in charges, mainly thanks to lower contributions to a Resolution Fund (by EUR 0.3 mil.). The ratio of operating costs and income improved on the year-on-year basis from 69 % to 63 %.



C. Costs of the credit risk

In 2016, the bank proceeded to a stricter assessment of the quality of its credit portfolio, while taking into account the intentions an guidelines of the parent bank as to the set-up of the risk profile of the assets of the bank group as a whole at acceptable level. When creating provision, the bank fully took into account the change in the quality of loans, with special emphasis put on the increasing sensitivity of corporate sector to the development of sales. Therefore, the increase of total costs of risks achieved EUR 12 mil. within a year-on-year comparison. The ratio of the coverage of impaired loans using provision achieved the value of 61.8 %, with a year-on-year increase by 10.5 pp. In 2016 the bank wrote off non-performing credits in the volume of EUR 0.4 mil. and sold non-performing credits in the volume of EUR 0.5 mil. These transactions had a minimum impact on business result, since they were covered almost in full amount by provision and selling price.



D. Business result

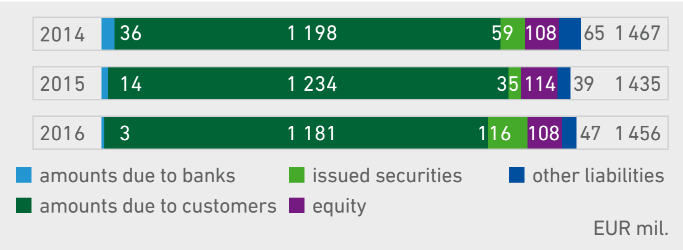
Due to significant increase in the coverage of impaired loans using provision, the bank, in 2016, recorded a business result after tax - a loss in the amount of EUR 3.021 mil. The 2016 loss will be settled from retained earnings of previous years.

V. BUSINESS RESULTS

A. Liabilities and shareholders` equity

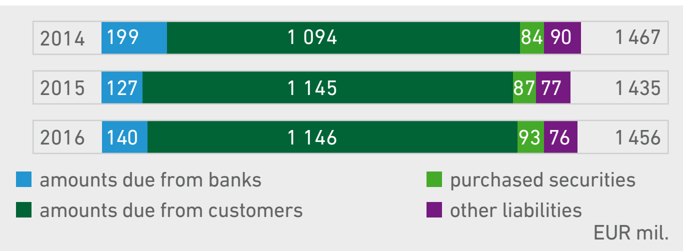
The balance sheet total of the bank slightly increased in 2016, with the decreasing volume of customer deposits, that, at the end of the year, reached the value of EUR 1.2 billion (a 4 % decrease). The bank was able to partially replace the decreasing volume of term deposits of the population with the increase in funds on current and savings accounts and the significantly positive development of non-term deposits in the segment of entrepreneurs also contributed to the compensation. The ratio

of liabilities toward clients to total liabilities and shareholders` equity decreased on the year-on-year basis from 86 % as of the end of 2015 to 81 % in 2016.
In 2016 the bank issued mortgage bonds in the volume of EUR 20 mil. and bonds in the volume of EUR 95 mil. Therefore, the total portfolio of issued securities increased by 234 % on the year-on-year basis.
The bank met all European and national legislative requirements in the field of capital and at the end of the year it reached capital adequacy at the level of 12.9 %. Year-on-year comparison showed no change in the volume of the bank`s subordinate liabilities.



B. Assets

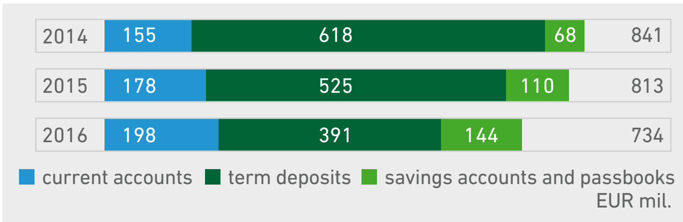
The credit portfolio of the bank stagnated in 2016, while the achievement of the planned rate of engagement on the side of assets was negatively influenced by the reaction of retail clientele to new legislative conditions and competitive behaviour of banks on the housing loan market. The increase in the volume of loans granted to the segment of small and medium-sized enterprises (10 %) exceeded the bank`s expectations and these loans together with consumer loans (12 %) and dynamically developing loans of micro-entrepreneurs (33 %) fully offset the decrease in other segments. The ratio of loans to deposits increased from 97.1 % to 103.7 % as of the end of 2016.
In 2016 the bank increased the volume of HTM portfolio by EUR 10.4 mil. and its share in the total volume of securities increased to 90 % on the year-on-year basis.
In 2016 the bank managed its financial assets and liabilities so that, in its effort to use them effectively, it was able to meet all regulatory and internal requirements in the field of liquidity management.



VI. RETAIL BANKING

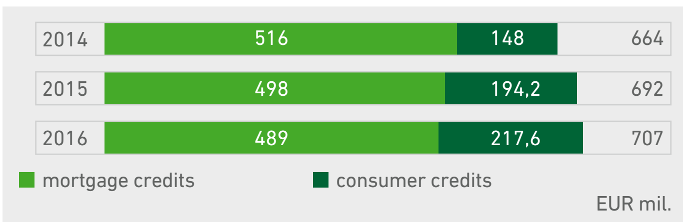
A. Retail deposits

In the middle of 2016 retail current accounts were redesigned. Within this process two new accounts - Active Account and Favourable Account replaced the existing three service packages. Clients reacted very positively to the simplified portfolio of current accounts with a modern set-up of the content of services and transactions. Clients were primarily interested in the Active Account and in addition to conversions from the existing service packages, new current accounts accounted for as much as a quarter of the Active Accounts as of the end of the year.
The combination of the Active Account with a Savings Account product in relation to current account represented one of the most favourable offers on the market, which was also reflected in the increase of deposits on the Savings Account in relation to the current account by 50 %. A new portfolio in combination with new parameters of Loyalty Programme contributed to the year-on-year increase in the number of active clients by 26 %, which lead to the increase in the number of transactions and higher income in the field of retail deposit products. A new smartphone and tablet application, which since its launching at the end of the year recorded a significant growth of downloads and positive reviews of users, also contributed to the moderni sation of the portfolio and the simplification of services for clients. A Big Money competition made the favourable offer of accounts more visible in the last months of the year. The competition aimed to increase the activity of the existing clients and to acquire new clients with current accounts.



B. Retail loans

In 2016 the bank recorded an increase in the portfolio of retail loans, when with the increase in gross state by EUR 14.5 mil. (+ 2.1 %) they reached the level of EUR 706.9 mil. Also in this year, the bank supported the sale of unsecured consumer loans. Their gross volume increased on the year-on-year basis by EUR 23.3 mil. from EUR 194.2 mil. to EUR 217.6 mil. (12 %). The biggest volume of the growth was mainly associated with the granting of consumer loans to refinance the existing loans from other banks, non-bank and leasing companies for clients with good credit history, but also the granting of loans for its clients to whom the bank offered loans with attractive conditions in the form of pre-defined limits, while the client could choose from consumer loan, authorised overdraft or credit card. In 2016 the increase of early repayments due to legislative adjustment of the fee for early repayment lead to a 1.8 % year-on-year decrease in the gross volume of loans secured by real estate (lower by EUR 8.9 mil.).



VII. CORPORATE BANKING

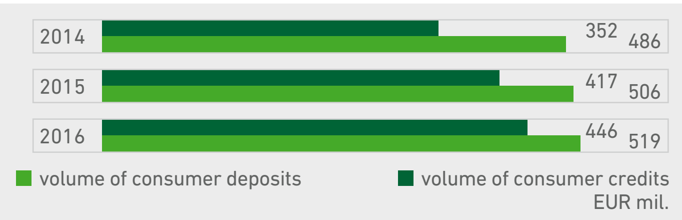
In 2016, as far as corporate banking is concerned, the bank focused on sustainable growth, i.e. clients who bring to the bank a balanced structure of assets and liabilities and income as well. Simultaneously, it continues to improve and expand its product offer. Within this strategy, the bank has successfully implemented an accounts receivable financing product by means of factoring.

The bank was successfully developing cooperation with the European Investment Fund within a Programme focused on participation in the risk of loans for small and medium-sized enterprises within a JEREMIE programme. SZRB Asset Management, a Slovak institution, took over the management of the program in 2016. This programme, supported from EU funds, enabled the bank to grant to the firms loans with preferential interest rate thus supporting the development of business in Slovakia. In this way also the firms that do not have direct access to donations could benefit from the EU funds.

In October 2016 the bank concluded a credit contract with the European Bank for Reconstruction and Development within other programme - SlovSEFF. Based on this cooperation the bank can, during the next two years, grant loans to support energy efficiency projects.

This strategy resulted in the increase of the volume of gross loans (by EUR 13.0 mil.) and deposits (by EUR 29.3 mil.) especially in the key sector of small and medium-sized enterprises (a 10 % increase in loans) which balanced a slight decrease in loans granted to big companies. The bank`s key sectors were represented by housing administrators, manufacturing and industrial enterprises, agricultural sector and clients in the field of renewable energy sources. The bank supports the sectors through its tailor-made approach or preferential parameter of some products.

After the forming of a sales team covering all regions and closely cooperating with retail network, the creating and fine-tuning of bank products, the bank continued with the intensive development of services for micro-entrepreneurs. In order to support loans to sole traders and small entrepreneurs, the bank also concluded a new portfolio security programme with the European Investment Fund. This and other tailor-made products ensured the dynamic growth of the volumes of loans in the segment of micro-entrepreneurs.

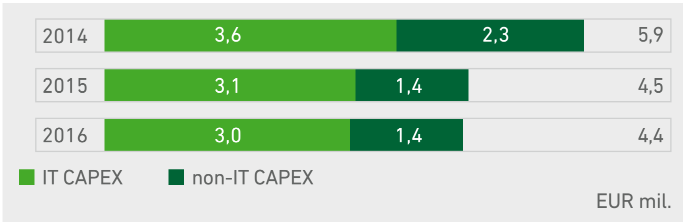


VIII. DEVELOPMENT OF THE BANK

In 2016, EUR 4.4 mil. were spent for the investment development of the bank. Information technologies, bank technology, ATM and renovation of business sites were the main development objectives. The volume of invested financial funds in IT reached EUR 3.0 mil. The main part of investments consisted of digitisation projects focused on increasing the comfort and level of services rendered to clients, especially the implementation of mobile banking, the development of biometrics, the modernisation and expansion of internet banking for corporate clients, and the installation of new information technology in branches.

Further investments were associated with the purchase of recycling ATMs in order to expand ATM network and with the modernisation of IT infrastructure and the purchase of computers.

Investments in the development of sales network in the volume of EUR 1.0 mil. were also focused on clients. Five branches were renovated in order to increase the quality of the environment of the rendering of banking services. As to other investments, bank security systems and air-conditioning equipment were renewed.



IX. EXPECTED BUSINESS DEVELOPMENT

We expect that established trends will continue in 2017. GDP growth should slightly slow down due to lower foreign demand and investments of government and private sector. Situation on the labour market will continue to improve and will reach further historic records in the number of the employed, also with the support of foreign labour force. The increasing scarcity on the labour market should be reflected in the further increase of real wages. According to our projection, inflation will exceed a 1 % level, influenced by the increase in the prices of energies, food, and at the end of 2017 probably also by the growing demand of households.

Lower profitability of the banking sector, which, in 2016, was supported by an unplanned income from the sale of Visa Europe shares, should become more evident in 2017. The environment of low interest rates and the freeing of the hands of consumers in the field of the refinancing of loans secured with real estate lead to a significant pressure on product margins and the re-evaluation of old portfolios.

In 2017 the bank expects a higher market share in the field of the loans granted, where, in the case of loans granted to the population, the bank will focus on the stabilisation of its market share of housing loans and the higher share of consumer loans. As to corporate loans, the bank will build on the segments of SME and micro-entrepreneurs, where it expects a significant growth.
On the side of deposits, the bank will continue to strengthen the share of non-term deposits in total deposits. Also in this year, the bank will focus on more active transaction behaviour of both retail and corporate clients.
Also in 2017, OTP Bank Slovensko, a.s. will develop and increase the quality of services rendered to clients, such as the expansion of the services rendered in relation to current accounts and bank services by means of electronic channels, mobile banking, the implementation of a modern solution to serve clients and the further expansion of ATM network. As to the electronic distribution channels, in addition to the development of services, the bank will keep on developing the sale of bank products and services. With increased effort, the bank will focus on making business processes in branches and headquarters more effective and automated.
In 2017 the bank will focus on maintaining operating and total effectiveness. In this field, the bank plans to achieve improvement through the growth of the volume of transactions, a change in their structure in favour of more profitable products and the thorough management of operating costs leading to their reduction.

X. ADDITIONAL INFORMATION

The bank has no organisational branch abroad. It is active in banking and this activity has no specific negative impacts on the environment.
In 2016, in addition to the bank, OTP Group was represented in Slovakia also by OTP Faktoring Slovensko, s.r.o., OTP Buildings, s.r.o. and OTP REAL Slovensko, s.r.o.
The bank did not acquire own shares, temporary certificates and ownership interests and shares of the parent accounting unit. Likewise, it did not obtain any subsidies from public funds. At the end of the year it sold its shares in RVS, a.s. and OTP Buildings, s.r.o.
The structure of shareholders as of 31 December 2016 - the share of domestic shareholders in shareholders` equity as of 31 December 2016 accounted for 0.71 % and the share of foreign shareholders accounted for 99.29 %. OTP Bank, Nyrt. is the sole shareholder with a stake higher than 1 % in the bank`s capital.

Shareholder	Shareholding (€ '000)	Share (%)
OTP Bank Nyrt.	87 887	99,26
Others	652	0,74
TOTAL SHARE CAPITAL	**88 539**	**100**

MARKETING SUPPORT OF PROJECTS

Communication activities in 2016 were primarily focused on supporting business.

In retail banking, it was mainly media communication of refinancing and mortgage loans. New service packages and supporting clients` activity in relation to their account were supported by a massive consumer competition. We also paid close attention to the communication of a new Mobile Banking, as the most distinctive product innovation. Within micro-loans segment, loans supported by the EU funds were the main product.

As to corporate banking, the media communication was primarily focused on the promotion of Jeremie loans. Simultaneously, during the whole year we were communicating through professional magazines and periodicals focusing on the specific group of clients and products. As to relationship management in East region, we prepared informal meetings with selected clients.

The bank supported, by means of contribution, activities of OTP READY Foundation and also other sport, cultural, charity and social activities. Supporting local and regional communities in the fields where the bank has its business representation was an important aspect of the allocation of funds.

OTP READY Foundation is primarily focused on the financial education of secondary school students. In 2016 the foundation expanded its scope and also focused on the financial literacy of elementary school pupils. During the year the foundation cooperated with 39 schools in the territory of Slovakia, including schools for pupils with special needs. In total, 1,929 pupils participated in 151 training courses.

Within the continual improvement of services for our customers, we conducted the monitoring of the quality of the services rendered in our branch network. Results helped us to develop action plans for the strengthening of the weaker evaluated service activities of the client.

VISION AND MISSION

VISION

Our bank's vision is not only to continue in what we have become in the Slovak financial market, but to achieve the maximum satisfaction and convenience for our clients, while our work and its results would convince other clients who are looking for quality services to express their trust in OTP Banka Slovensko as a modern, re-liable and well-established financial institution. We use the expertise, human potential of employees and the experience of an international group to satisfy our clients' needs, providing them with convenient services and exceeding their expectations.

MISSION

The mission of OTP Banka Slovensko, a.s. is to provide professional and high quality services to its retail, corporate and local government clients. To apply fine-tuned management practices to combine existing potential and to act transparently and prudently, and also to proactively promote efficient innovations. Our motto is to satisfy each client. Our clients need to know that we are here for them, that they are important to us, regardless of whether they are a large company or an employee of a small business. We listen to their needs and respect them. We will convince them with the high quality of modern products, with the level of the services provided, with our personal approach, reliability, professionalism and open communication.

Code of Ethics

BASIC MORAL REQUIREMENTS

Honesty and integrity

To act honestly and fairly in personal and business relationships, while taking care to comply with all applicable rules and regulations and adhere to moral principles and rules of decent behaviour.

Professionalism

To perform all work activities at the highest possible professional level and in accordance with the rules and principles of honest business conduct.

PRINCIPLES OF PROFESSIONAL ACTIVITY

Professional credibility

To continuously advance the development of the Bank staff's expertise, with the aim of meeting and exceeding the expectations associated with a good business reputation. To sell products andservices by means of experienced staff, paying particular attention to providing complete and correct information to clients.

Conflict of interest

Pursuant to legal regulations, to avoid conflicts of interest relating to the standing of the Bank, work and person, as well as to prevent such conflicts from arising. Refrain from all activities that are in conflict with the Bank's or clients' interests, to make decisions impartially and objectively.

Confidentiality

One of the key conditions for a relationship of trust established between the Bank and its clients is the strict protection of business secrets, banking secrets and confidential information. We protect personal data that we obtain in the course of providing our financial services

Retail network – branches as at 31.12.2016

STATEMENT ON COMPLIANCE WITH THE PRINCIPLES OF THE CORPORATE GOVERNANCE CODE FOR SLOVAKIA

OTP Banka Slovensko, a.s. and the members of its bodies have committed to raising overall the level of corporate governance and have adopted the Corporate Governance Code for Slovakia, published on the CECGA website at: http://www.cecga.org/sk/o-nas/kodex. The Code can also be found on the Bank's website. With the aim of committing to fulfil and comply with the Code's individual principles, to advert to the manner of such compliance and to issue a Corporate Government Statement pursuant to § 20(6) of the Accountancy Act no. 431/2002 Coll. as amended, the Company hereby makes the following Statement:

I. PRINCIPLE: SHAREHOLDERS' RIGHTS AND KEY FUNCTIONS OF OWNERSHIP

A. Shareholders' fundamental rights

The records of registered shares are kept by the Central Securities Depository of the SR (Centralny depozitar Cennych papierov SR, a.s.) and these supersede the list of shareholders. In order to be effective the transfer of a registered share requires that a record of the transfer be made in the register of issuers of securities, as maintained by the Central Securities Depository of the SR, where the share is registered. The Articles of Association do not restrict transferability of the shares. To acquire or exceed an interest in the registered capital or voting rights of the Bank amounting to 20%, 30% or 50% in one or several operations, prior approval of the authorities supervising the Company is required. At a general meeting, a shareholder is entitled to require information and explanations relating to the Company's affairs or the affairs of entities controlled by the Company, to submit proposals relating to the agenda under discussion and to vote. Upon request, the Board of Directors is obliged to provide a shareholder at the general meeting complete and true information and explanations relating to the subject of the general assembly's agenda. If the Board of Directors is unable to provide the shareholder at the General Meeting with complete information or if requested by the shareholder at the General Meeting, the Board of Directors is obliged to provide such information to the shareholder in writing within 15 days following the General Meeting. The Board of Directors shall send the information to the shareholder to the address specified by the shareholder, else to the address specified in the list of shareholders. The Board of Directors is entitled to refuse to give such information only if it would constitute a breach of law, or if it is clear from a careful assessment of the information that its provision could cause harm to the Company or an entity controlled by the Company. Information relating to the management and assets of the Company must be provided in any circumstances. If the Board of Directors refuses to provide information, the Supervisory Board will, at the shareholder's request, decide on the Board of Directors' obligation to provide the required information during the negotiation of the General Meeting. Shareholders are entitled to view the Minutes of a Meeting of the Supervisory Board. Shareholders are obliged to keep such information obtained confidential.

Shareholders may only exercise their right to take part in the management of the Company at the General Meeting, respecting the organisational measures applicable to the General Meeting. The number of the votes of each shareholder is determined by the ratio of the nominal value of their shares and the amount of the registered capital. Shareholders may exercise their rights at the General Meeting by means of an authorised representative. The authorisation must be in writing and the shareholder's signature must be certified. The authorisation will expire, if the shareholder takes part in the General Meeting. If the shareholder authorises more than one person to exercise their voting rights connected with the same shares at one General Meeting, the Company will allow only the authorised representative who first registered in the attendance list to vote. A member of the Supervisory Board of the Company may not be an authorised representative. The Board of Directors is obliged not to allow the shareholder to exercise their rights, if the relevant body has decided to suspend the exercise of the shareholder's rights or otherwise restrict the shareholder's rights. Shareholders are entitled to a share in the profit, determined by the ratio of the nominal value of their shares and nominal value of all shareholders' shares.

B. Right to take part in the decisionmaking process relating to substantial changes in the Company and right of access to information

Amendment to Articles of Association
A draft amendment to the Articles of Association may be submitted by a shareholder or the Board of Directors of the Company. A shareholder may exercise this right at the General Meeting, if the amendment to the Articles of Association has been included in the General Meeting agenda, or under circumstances specified in Art. VIII of the Articles of Association, and request that a General Meeting be convened in order to negotiate the draft amendment to the Articles of Association. The complete text of the draft amendments must be available at the Company's seat at least 30 days prior to the General Meeting. The Board of Directors is obliged to ensure that each shareholder is able to view the complete wording of the amendments upon registration in the attendance list.

Amendments to Articles of Association and amended Articles of Association (for the purposes of this Section hereinafter referred to as an “Amendment to the Articles of Association”) approved by the General Meeting will become valid and effective upon approval by the bodies supervising the Company’s activity. If the body supervising the Company’s activity fails to decide on the Company’s request for approval to an Amendment to the Articles of Association within 30 days following delivery of a complete request, the Amendment to the Articles of Association will be deemed approved. By decision of the General Meeting or a generally binding legal regulation, the Amendment to the Articles of Association may become valid and effective on any later date. A Notarial Deed must be made with regard to the decision on the Amendment to the Articles of Association. If the Amendment to the Articles of Association changes any facts registered in the Commercial Register of the Slovak Republic, the Board of Directors will be obliged to file a petition for registration of such changes with the Commercial Register of the Slovak Republic without undue delay.

By-Laws

Within the scope defined by the generally binding legal regulations and decisions of the Company’s bodies, the Company’s activities are regulated by its by-laws. By-laws break down into instructions of the Board of Directors,instructions of the CEO, working regulations and working instructions. Instructions given by the Board of Directors regulate the fundamental relationships in the Company, in particular acting on behalf of the Company, labour relationships and organisation of the Company. The Board of Directors’ instructions also regulate employees’ procedures in entering into deals with clients. The CEO’s instructions regulate those areas of the Company’s activity that transcend the activities of a particular division. Working regulations regulate the subtasks, obligations and working procedures in the individual fields of the Bank’s activity. By way of working instructions, the Executive Assistant to CEO regulates the activity of the organisational unit and employees of the division that he/she manages.

Approval of the issue of new shares

The registered capital of the Company may be increased or decreased by the Company’s General Meeting at the request of the Board of Directors or, as relevant, the Board of Directors may do so in accordance with legal regulations and the Articles of Association. The General Meeting may decide on the issue of several types of shares distinguished by name and content of the rights connected therewith (voting right, amount of share in profits). Shares may be of different nominal value. All of the types of shares must have the type and form laid down by generally binding legal regulations.

Bonds

Based on the decision of the General Meeting, the Company may issue bonds carrying rights for their conversion to the Company’s shares, or bonds carrying right to preferential subscription of shares, if, at the same time, the General Meeting decides on a contingent increase in the registered capital.

Extraordinary Transactions

Shareholders are continuously informed of major transactions carried out by the Bank.

General Meeting is the Supreme Body of the Company

a) amendment to the Articles of Association,
b) decision to increase the registered capital, entrusting the Board of Directors with the power to decide on an increase or decrease in the registered capital,
c) decision on the issue of bonds under Art. V of the Articles of Association,
d) decision on the termination of and change to the legal form of the Company upon the prior approval of bodies supervising the Company’s activity,
e) election and dismissal of members of the Supervisory Board except members of the Supervisory Board elected and dismissed by employees,
f) approval of the ordinary and extraordinary individual Financial Statements, decision on the distribution of profit, including the amount of royalties and dividends, or settlement of loss,
g) approval of the Annual Report,
h) decision on the transformation of shares issued as registered securities to letter securities and vice versa,
i) decision on the termination of trading of the Company’s shares at a stock exchange and decision to cease the Company as a public joint-stock company,
j) decision on other issues entrusted by the Articles of Association to the General Meeting,
k) decision on approval of an Agreement on Transfer of an Enterprise or Part of an Enterprise, and
l) decision on matters otherwise pertaining to other bodies of the Company, if reserved by the General Meeting, which, however, does not apply to deciding on matters entrusted to other bodies of the Company by a generally binding legal regulation.
m) decision on matters otherwise pertaining to other bodies of the Company, if reserved by the General Meeting, which, however, does not apply to deciding on matters entrusted to other bodies of the Company by a generally binding legal regulation.

In order to approve a decision of the General Meeting on an Amendment to the Articles of Association, an increase or decrease in the registered capital, commissioning the Board of Directors to increase the registered capital, an issue of priority or convertible bonds, dissolution of the Company, change of legal form or approval of a decision to end trading of the Company’s shares on a listed securities market, a two-thirds majority of all shareholders’ votes is necessary, and a Notarial Deed thereof must be made. In order to approve any other decision of the General Meeting, a two-thirds majority of the votes of all shareholders’ votes is necessary.

C. Right to take part in decisionmaking regarding remuneration of the members of the bodies and management

Remuneration of the members of the bodies and management, the main principles and rules of remuneration and their implementation are governed by the applicable SR legislation and are contained in the Bank's internal Statement on compliance with the principles of the Corporate Governance Code for Slovakia Annual Report 2015 23 regulations, "Rules of Remuneration Policy at OTP Banka Slovensko, a.s". Legal framework of the regulation related to the principles of remuneration:

- Annex I to Directive 2010/76/EU (CRD III) of the European Parliament and of the Council,
- CEBS Guidelines on Remuneration Policies and Practices (dated 12 December 2010),
- Act No. 483/2001 Coll. on Banks and on amendments and supplements to certain acts, as amended,
- Act No. 566/2001 Coll. on Securities and Investment Services (The Securities Act) and on amendments and supplements to certain acts.

D. Right to take part in voting at the General Meeting

The Board of Directors convenes the General Meeting by a written invitation and notice of the General Meeting published in the nationwide periodical press publishing stock exchange news. The Board of Directors sends the written invitation to the shareholders to the address of their seat or permanent residence specified in the list of shareholders at least 30 days prior to the General Meeting. The invitation to the General Meeting must include all requisites laid down by generally binding legal regulations. If the Board of Directors fails to convene the General Meeting as described above, a member of the Board of Directors, Supervisory Board or shareholder may convene the General Meeting under the conditions laid down by the generally binding legal regulations. The Board of Directors must ensure that the Minutes of the Meeting are prepared within 15 days following the meeting. The Minutes of Meeting are to be signed by the minutes clerk, Chair of the General Meeting and two elected verifiers. In the event that the generally binding legal regulations stipulate that a Notarial Deed of the General Meeting be prepared, the Board of Directors must ensure the preparation thereof. Each shareholder may ask the Board of Directors to issue a copy of the Minutes of Meeting or a portion thereof along with the attachments thereto. At the shareholder's request, the Board of Directors is obliged to send such copy to the shareholder to the address specified by the shareholder or provide it to the shareholder otherwise as agreed with the shareholder without undue delay; otherwise it must make it accessible at the Company's seat. The cost of producing and sending the copy of the Minutes of a Meeting or a portion thereof along with the attachments is borne by the shareholder who asked for such a copy. The Minutes of a Meeting along with the notice of a General Meeting or invitation to the General Meeting and the list of attendees must be kept by the Company for the whole period of its existence. If the Company ceases to exist without any legal successor, the Company must deliver the documents to the relevant national archive.

E. Ownership structure and control

The Company is not aware of any agreements between the shareholders.

F. Ways to acquire control over the Company

To acquire or exceed an interest in the registered capital or voting rights of the Bank amounting to 20%, 30% or 50% directly or through action taken in concert in one or several operations, prior approval of the authorities supervising the Company is required. The law penalises such acquisition or exceeding of a share in the registered capital of the Bank or voting rights amounting to 20%, 30% or 50% directly or through action taken in concert in one or several operations without the prior approval of bodies supervising the activity of the Company by annulling such action.

G. Simplification of the exercising of shareholders' rights

The Company has made accessible all important information about the Company's events on its website.

H. Possibility for mutual consultations among shareholders

Shareholders are not restricted by legal regulations in force or Articles of Association in their mutual consultations.

II. PRINCIPLE: FAIR TREATMENT OF SHAREHOLDERS

A. Equal Treatment of Shareholders

The number of a shareholder's votes is determined by the ratio of the nominal value of their shares and the amount of registered capital. All shares carry equal rights and obligations. A shareholder or shareholders owning shares, whose nominal value amounts to at least 5% of the registered capital, may, stating a reason, request in writing that the Extraordinary General Meeting or Supervisory Board be convened to discuss proposed issues. If the shareholders requested that the Extraordinary General Meeting be convened to discuss an Amendment to the Articles of Association or election of the members of the Supervisory Board, they are obliged to submit a draft Amendment to the Articles of Association or names of persons proposed to be the members of the Supervisory Board along with a request for convening an Extraordinary General Meeting. The request for convening an Extraordinary General Meeting may only be satisfied if these shareholders prove that they have owned their shares at least 3 months prior to the end of the deadline for the Board of Directors to convene an Extraordinary General Meeting. Any shareholder listed in the list of shareholders or a person authorised by him/her may take part in the voting. Only shareholders who are present at the General Meeting may vote.

Discussions of the General Meeting

1. The General Meeting decides by voting based on a call of the Chair of the General Meeting.
2. If any proposal amending an original proposal (amendment) is filed, the General Meeting shall first vote on such an amendment. The Chair of the General Meeting may combine voting on several amendments into one vote by the General Meeting.
3. If there are several proposals and it is not possible to apply the procedure under point 2), the Chair of the General Meeting shall decide on the order in which the proposals will be voted on.
4. If there are mutually exclusive proposals (competing proposals), the General Meeting shall only vote until one of such proposals is adopted. The General Meeting will not vote on the other proposals.
5. Competing proposals also include proposals to elect members of the company's bodies in an extent to which they exceed the number of vacant posts in the company's bodies.
6. Upon the election of members of the Supervisory Board elected by the General Meeting, the General Meeting shall vote on each person proposed to the post of a member of the Supervisory Board individually.
7. Issues not included in the agenda of the General Meeting may only be decided on with the participation and approval of all of the Company's shareholders.
8. Voting is performed by handing over a voting ticket or any other verifiable manner.
9. Result of the vote is reported by the scrutineers to the Chair of the General Meeting and minutes clerk.

B. No abuse of confidential information

Trading on one's own account based on abuse of confidential information is regarded as serious professional misconduct with appropriate consequences. In this field the Bank respects the legal regulation (Act on Banks, Act on Securities, Commercial Code and Act on Stock Exchanges), as well as the standards drawing on the law (Code of Ethics, Stock Exchange Code and Stock Exchange Rules). The relevant unit of the bank investigates the misuse of confidential information that could damage the reputation of the bank or client's interests. Employees coming into contact with confidential information are directly subject to external inspection as stipulated in the Stock Exchange Code and Stock Exchange Rules.

C. Transparency upon a conflict of interest

The members of the Board of Directors, Supervisory Board and Managers are obliged to inform particular entities about affairs (personal, business, family) that could affect their objectivity in connection with a particular transaction. In such cases, the higher managing unit is obliged to replace the employee commissioned to perform a transaction with another employee. Concealment of facts resulting in harm to interests protected by law results in liability for such breach, regardless of function or position at the Bank. Conflicts of interest are dealt with in a separate working regulation and in the Code of Ethics, which is available on the Company's website. The Company, naturally, complies with the provisions of § 23 of the Act on Banks, by incorporating it in its internal conditions. In key transactions the Bank uses team decision-making and a correctly set system of remuneration.

III. PRINCIPLE: ROLE OF STAKEHOLDERS IN CORPORATE GOVERNANCE

A. Respecting stakeholders' rights

At OTP Banka Slovensko, a.s., stakeholders include employees and their trade union. The rights of employees and their trade union are regulated primarily by the Commercial Code and Labour Code.

B. Possibilities for effective protection of stakeholders' rights

Stakeholders' rights are protected primarily by the members of the Supervisory Board elected by the employees and by the trade union.

C. Participation of employees in the Company's bodies

Two of the five members of the Supervisory Board are elected by the employees.

D. Right of access to information

Stakeholders have access to information through the members of the Supervisory Board and trade union.

E. Control mechanisms of the stakeholders

Control mechanisms of the stakeholders are not formalised. Employees may apply control mechanisms through the members of the Supervisory Board and trade union.

F. Protection of creditors

In addition to the ordinary means relating to each borrower, the protection of creditors is ensured by NBS supervision and the Act on Protection of Deposits, which stipulates a guarantee by the Deposit Protection Fund for a specified group of creditors.

IV. PRINCIPLE: PUBLICATION OF INFORMATION AND TRANSPARENCY

A. Minimum publication requirements

The management of OTP Banka Slovensko, a.s. complies with a Code of Corporate Governance and the rules of Stock Exchange in Bratislava when disclosing all fundamental information. The financial and operating results of the bank are further disclosed under Act on Banks, Act on Accounting and relevant measures of the National Bank of Slovakia. The bank discloses audited financial statements for relevant accounting period. Financial statements for relevant accounting period and continuous financial statements as of the end of individual quarters of accounting period are published on the bank's internet site. The bank ensures access to the information for all shareholders, clients, potential clients and employees. The information is disclosed and processed according to international accounting standards and international financial reporting standards. The information includes data on company's financial situation, the bank's management, equity relationships of the bank, and describes transactions with related parties.

1. The Company's business activities include:

1. acceptance of deposits,
2. provision of credit,
3. provision of payments service and settlement,
4. provision of investment services, investment activities and ancillary services pursuant to Act No. 566/2001 Coll. on Securities and Investment Services and on Amendments to Certain Acts as amended (the "Act on Securities") to the extent specified in point 2 of this Article, and investment in securities on own account,
5. trading on own account
   a) in money market instruments in euro and foreign currency, in gold, including currency exchange,
   b) in capital market instruments in euro and foreign currency,
   c) in coins made of precious metals, commemorative banknotes and coins, sheets of banknotes and aggregates of circulating coins,
6. management of clients' receivables on their accounts, including relating advisory services,
7. financial leasing,
8. provision of guarantees, opening and confirmation of letters of credit,
9. issue and management of means of payment,
10. provision of advisory services in the business area,
11. issue of securities, participation in the issue of securities and provision of related services,
12. financial intermediation,
13. safekeeping of things,
14. leasing of security boxes,
15. provision of banking information,
16. separate mortgage deals pursuant to the provision of § 67 (1) of Act No. 483/2001 Coll. on Banks and on Amendments to Certain Acts as amended,
17. depository function,
18. processing of banknotes, coins and commemorative banknotes and coins.

2. The Company is entitled to provide the following investment services, investment activities and ancillary services pursuant to the Act on Securities:

1. acceptance and assignment of a client's instruction relating to one or more financial instruments in relation to the financial instruments:
   a) transferable securities,
   b) money market instruments,
   c) mutual funds or securities issued by foreign collective investment entities,
   d) swaps relating to interest rates or yields that may be settled by delivery or in cash,
2. performance of a client's instruction on his/her account in relation to the financial instruments:
   a) transferable securities
   b) money market instruments,
   c) mutual funds or securities issued by foreign collective investment entities,
   d) swaps relating to interest rates or yields that may be settled by delivery or in cash,
3. trading on own account in relation to the financial instruments:

a) transferable securities,
b) money market instruments,
c) mutual funds or securities issued by foreign collective investment entities,
d) futures and forwards relating to currencies that may be settled by delivery or in cash,
e) swaps relating to interest rates or yields that may be settled by delivery or in cash,
4. investment advisory services in relation to the financial instruments:
a) transferable securities,
b) money market instruments,
c) mutual funds or securities issued by foreign collective investment entities,
5. subscription and placing of financial instruments based on a fixed liability in relation to a transferable security,
6. Uplacing of financial instruments without a fixed liability in relation to the financial instruments:
a) transferable securities,
b) mutual funds or securities issued by foreign collective investment entities,
7. safekeeping of mutual funds or securities issued by foreign collective investment entities and safekeeping and management of transferable securities on the client's account, except tenure, and related services, especially management of funds and financial collaterals,
8. performance of forex trades, if connected with the provision of investment services,
9. performance of investment research and financial analysis or any other form of general recommendation relating to trading in financial instruments,
10. services connected with the subscription of financial instruments.
11. Business activities of the company include also financial intermediation under Act No. 186/2009 Coll. on Financial Intermediation and Financial Counselling and on amendment and supplement of certain acts as amended to the extent of a bound financial agent within the insurance and reinsurance sector and a bound financial agent within the capital market sector.

Changes in the Supervisory Board in the course of 2016

Member of the Supervisory Board Mr. Péter Forrai resigned as Member of the Supervisory Board, termination of office on 20 September 2016.

Members of the Supervisory Board elected by the Company's employees

Members of the Supervisory Board, Ing. Angelika Mikócziová and Ing. Jozef Brhel have been elected by the employees of the company.

Commencement and termination of the office of the member of the board of directors

1) The Company's Board of Directors has 4 members.
2) The members of the Board of Directors are elected and dismissed by the Supervisory Board.
3) A proposal to elect or dismiss a member of the Board of Directors may be submitted to the Chair of the Supervisory Board by
a) shareholders owning shares whose nominal value exceeds 10% of the registered capital, and
b) a member of the Supervisory Board.
4) A proposal to elect or dismiss a member of the Board of Directors must be submitted in person and in advance. Such a proposal must then be included in the agenda of the next meeting of the supervisory Board by the Chair of the Supervisory Board. A member of the Supervisory Board may submit a proposal to elect or dismiss a member of the Board of Directors right at the meeting of the Supervisory Board. The Supervisory Board shall decide on the inclusion of an oral proposal to elect or dismiss a member of the Board of Directors in the agenda of the meeting of the Supervisory Board. A member of the Board of Directors may be dismissed by the Supervisory Board even before the end of his/her office. The Supervisory Board shall decide on the election or dismissal of a member of the Board of Directors by an absolute majority of votes of the members of the Supervisory Board.
5) The office of the member of the Board of Directors commences on the day of election, unless the Supervisory Board has decided that the office of the member of the Board of Directors commences on a later day.
6) The office of the member of the Board of Directors ends at the end of his/her office, by dismissal, resignation, validity of the court's decision on the restriction or termination of legal capacity to act, by death or declaration as deceased.
7) The office of the member of the Board of Directors lasts 4 years.
8) The member of the Board of Directors may resign from his/her office. A written resignation shall become effective as of the day of the first meeting of the Supervisory Board following the delivery of the resignation. If the member of the Board of Directors resigns at the meeting of the Supervisory Board, the resignation shall be effective immediately. If, by resignation of any member of the Board of Director, the number of the members of the Board of Directors falls below three, the Supervisory Board may decide that the resignation shall become effective at the end of the period determined by the Supervisory Board. The above period must not exceed 30 days and shall start on the day following the day of the meeting of the Supervisory Board, where the resignation was discussed.
9) For any change or election of a new member of the Board of Directors, prior approval of the bodies supervising the Company's activity is necessary.
10) The Chair of the Board of Directors is elected by the Supervisory Board from the members of the Board of Directors.

Commencement and termination of the office of a member of the supervisory board

1) The Supervisory Board currently has five members.
2) Three members of the Supervisory Board are elected and dismissed by the General Meeting. Two members are elected and dismissed by the Company's employees.
3) Each shareholder is entitled to propose candidates for members of the Supervisory Board elected and dismissed by the General Meeting.
4) Only the employees who are employed by the company at the time of elections (hereinafter referred to as the "eligible voters") have the right to elect members of the Supervisory Board. Election of members of the Supervisory Board by employees is organized by the Board of Directors in cooperation with the trade union so that as many eligible voters or their authorized representatives as possible can participate in the elections. If the trade union is not established within the company, elections of members of the Supervisory Board elected by employees of the company is organized by the Board of Directors in cooperation with the eligible voters or their authorized representatives. The trade union or at least 10% of the authorised voters are entitled to file a proposal for the election or dismissal of the members of the Supervisory Board elected by the Company's employees. For the appointment or removal of members of the Supervisory Board elected by employees of the company to be valid, the voting of eligible voters must be secret and at least a majority of eligible voters or their authorized representatives having at least a majority of votes of eligible voters must participate in the elections. The candidates with the highest number of votes of the present eligible voters or their authorized representatives become members of the Supervisory Board. The election code for the election and dismissal of the members of the Supervisory Board elected by the employees of the Company is prepared and approved by the trade union. If there is no trade union, the election code is prepared and approved by the Board of Directors in collaboration with the authorised voters.
5) The office of the member of the Supervisory Board commences on the day of election, unless the General Meeting or employees decided that the office shall commence on a later day.
6) The office of the members of the Supervisory Board terminates by dismissal, resignation, validity of the court's decision on the restriction or termination of legal capacity to act, by death or declaration as deceased. The office of the member of the Supervisory Board terminates as at the end of the office of the member of the Supervisory Board, if a new member of the Supervisory Board was elected; otherwise the office shall be extended until the new member of the Supervisory Board is elected, however, by no more than 1 year.
7) The office of the members of the Supervisory Board is four years.
8) The member of the Supervisory Board may resign form his/her office. A written resignation shall be effective as of the day of the first meeting of the Supervisory Board following the delivery of the resignation. If the member of the Supervisory Board resigns from his/her office at the meeting of the Supervisory Board, the resignation may be effective immediately.
9) For any change or election of a new member of the Supervisory Board, prior approval of the bodies supervising the Company's activity is necessary.
10) The Chair of the Supervisory Board is elected by the Supervisory Board from the members of the Supervisory Board.

Within the scope of regular business activity, the Bank also performs transactions with related parties. In the case of OTP this concerns primarily the following companies within OTP:
OTP Bank Nyrt, Budapest (Hungary)
OTP Buildings, s.r.o. (Slovakia)
OTP Kartyagyártó és Szolgáltató Ktf. (Hungary)
OTP Financing Netherlands, B.V (The Netherlands)
OTP FINANCING MALTA COMPANY Limited
OTP Real Slovensko, s.r.o
OTP Faktoring, s.r.o. (Slovakia)
Transactions with related parties are carried out under normal business conditions.

The purpose and monetary valuation of the relationship and other necessary details are presented transparently by the Bank:

- in its Annual Report,
- on its website,
- regularly pursuant to legal obligations to the National Bank of Slovakia.

Foreseeable Risk Factors
The Bank's auditor has the possibility to require additional information and the external auditor has Access contractually ensured to the members of the Bank's bodies. The Bank manages risks resulting from foreseeable risk factors. The most important risks include credit risk, operational risk, market risk and liquidity risk. Credit risk is defined as a moment of uncertainty accompanying the Bank's business activity. Credit risk means any possible loss caused by the Bank's own activity or by any other facts independent of the Bank. It especially includes the default of a contractual partner not discharging its liabilities resulting from the agreed contractual terms in time and in full, thus causing a loss to the Bank. The Bank's evaluation system monitors the credit risk from two points of view: risk of default by a borrower and risk factors specific to a particular deal – transaction (guarantees, priorities, type of product, limits etc.). The acceptance of the credit risk towards the client depends on the outcomes of the analyses of the ability of the borrower to pay its liabilities (direct credit risk, risk of the business partner, country risk). The analyses include quality of the security instruments (residual risk – risk of security). The Bank has defined acceptable and unacceptable types of security and the acceptable amounts of collaterals. The credit exposure of the Bank is governed by a system of set limits (risk of concentration and asset exposure). Operational risk means the risk of loss resulting from inappropriate or erroneous internal processes at the Bank, failure of a human factor, failure of the systems used by the Bank or external events. The bank has developed an information system for the collection of operational risk events and it is used for continuous monitoring and provides a basis for the evaluation of effectiveness of adopted measures and instruments to mitigate operational risk. The bank, as a member of OTP Group, calculates capital requirement for the coverage of operational risk using an advance approach by means of a group model. The model includes all the relevant internal and external data, business environment factors and results of scenario analyses. The Bank is exposed to the impacts of market risks. Market risks result from open positions of transactions in interest, forex and stock products, which are subject to the effects of general and specific market changes. The forex risk is the risk that the value of a financial instrument will change due to changes in forex rates. The Bank manages this risk by determining and monitoring the limits for open positions. To analyse the sensitivity of the currency risk, the Bank uses the Value At Risk (VaR) method. Interest risk means the risk resulting from changes in interest rates. It originates as a result of a difference in due dates or periods of the revaluation of assets and liabilities. When measuring interest rate risk, the bank calculates the impact of the change of interest rates on the change in economic value and the change in net interest income. Liquidity risk means the risk that the Bank will have problems gaining funds to discharge its liabilities connected with financial instruments. The Bank monitors and manages liquidity based on the expected inflow and outflow of funds based on and appropriate changes to interbank deposits. Liquidity risk is limited by the system of limits. Legislative and internal indicators and gap analysis are primarily used when managing liquidity risk. The Bank also prepares liquidity development scenarios.
The bank, within Compliance and Security Section, has implemented a system of instruments to monitor unusual business transactions and the mitigation of risk associated with the laundering of funds from criminal activities. More detailed information on the bank's approach to individual risks and the management thereof is included in Notices to Financial Statements, which constitute a part of the bank's Annual Report.

Issues concerning employees and other stakeholders
Issues concerning employees are published on the Company's intranet and are updated as necessary.

Corporate governance strategy
The Bank supports the Corporate Governance Code for Slovakia. The composition and activity of the Company's bodies is published in the Annual Report, and updated in the relevant section on the Bank's website. The internal control system consists of methods, procedures, rules and measures of the Bank incorporated in internal bank processes, serving primarily to protect its assets, guarantee the reliability and accuracy of the accounting data, support compliance with the prescribed business policy and compliance with laws and other generally binding legal regulations. The managing bodies and managers of the Company are responsible for the adequacy and efficiency of the internal control system.

B. Quality of information

The Bank's management complies with the Corporate Governance Code. The Bank publishes its audited Financial Statements and information exclusively according to the International Accounting Standards and International Financial Reporting Standards. The Company regularly reviews the application of international standards in data processing and in financial reporting against the current state in the interest of the quality publication of information under International Financial Reporting Standards.

C. Independent audit

An independent part of the internal control system is the Internal Control and Audit Unit accountable to the Supervisory Board. The Internal Control and Audit Unit reviews compliance with laws, generally binding legal regulation and by-laws and procedures of the Company, reviews and assesses the functionality and effectiveness of the Company's management and control system, examines and evaluates the system of risk management, compliance with the Bank's principles of prudent business, readiness of the Company to perform new types of deals in terms of risk management, information provided by the Company about its activities, and, upon request by the Supervisory Board, performs reviews in the extent specified by the Supervisory Board. It performs its activity in all of the organisational units of the Company.

D. Accountability of the auditor towards shareholders

The external auditor is accountable to the shareholders by means of the auditor's invitation to the meeting of the Supervisory Board in connection with the discussion of the Financial Statements. At the same time, the external auditor takes part in the meetings of the General Meeting of the Company.
The external auditor proves their independence visa`- vis the Company by means of an affidavit.

E. Access of shareholders and stakeholders to information at the same time and to the same extent

The Company ensures that all shareholders and public are informed in time by means of its own website.

F. Independent analyses and advisory services

In selecting external suppliers the Bank proceeds so as to gain maximum quality and economically substantiated costs taking into account the conditions of each entity of the financial group. The by-laws regulate the automated processes within the group, guaranteeing the preservation of transparency and objectivity in the procurement of assets and services. As regards information, the main suppliers in the financial market are the independent agencies Reuters and Bloomberg, whose credit in terms of independence and objectivity is regarded as an internationally respected market standard.

V. PRINCIPLE: ACCOUNTABILITY OF THE COMPANY'S BODIES

A. Action of members of the bodies based on complete information in the interest of the Company and its shareholders

The members of the Board of Directors, Supervisory Board and other bodies of the Bank act based on information that is complete, correct and verifiable. The decision-making of members of the bodies may not be distorted by an existing or potential conflict of interests under any circumstances. Several wellestablished procedures work as a prevention: transfer of competences, publication of the information, refusal to act. The legal basis for the declarability of acting in the interest of the Company and the shareholders is the Act on Banks, Act on Securities, Commercial Code and Labour Code. According to the nature of their offices, the members of the bodies are subject to the principles of fair treatment of shareholders, monitoring and reporting to NBS in terms of transactions with persons with a special relationship towards the Bank and principles of remuneration of members of the bodies and management of the Company.

B. Equitable treatment of the members of the bodies and shareholders

The Company and the members of the bodies of the Company respect the rights of the shareholders resulting from legal regulations and the Articles of Association.

C. Application of ethical standards

The Bank is committed to compliance with legal standards, as well as moral principles and principles of social responsibility. On its website the Bank publishes a comprehensive declaration of fundamental ethical principles declared at the group level:

- fairness, integrity, expertise,
- prevention of conflicts of interest, confidentiality,
- respect towards clients and fair treatment,
- accountable management of the Company and social responsibility,
- solution of ethical misdemeanours and handling of complaints.

Furthermore, OTP supports the Code of Ethics of Banks in the area of consumer protection, prepared by the Slovak Association of Banks. The Code is a collection of ethical rules for consumer protection, representing a commitment of the banks involved to provide financial services to clients at a high level, observing the principles of decency and transparency in business. By acceding to the Code, the Bank undertook to communicate with the Banking Ombudsman within the limits of his competencies regarding disputed issues in the provision of services to the Bank's clients.

D. Key Functions:

Strategic planning is the key tool for the further advancement and orientation of the Bank and is managed by the parent bank. The Bank compiles its strategic plan according to the parent bank' guidelines. Strategic objectives form the basis for the annual business plan and financial budget. In preparing the strategic objectives, especial attention is dedicated to the risk profile of the planned business activities, which is subsequently reflected in the planned risk results. The strategy also includes a general investment plan, by means of which the Bank implements certain strategic goals. The investment plan is implemented in the form of projects. Following approval of the investment plan by the parent company, projects are prepared. By prioritising projects, a project Master Plan is prepared for the relevant year. The project Master Plan is continuously monitored, and reports for the Board of Directors on the fulfilment of the Master Plan are prepared quarterly, in which especially problematic areas and risks of individual projects, as well as proposals for reducing these risks, are specified for the individual projects. Monitoring of the effectiveness of the Company's procedures in the field of corporate governance is performed at the level of the Company's bodies. The Bank's Board of Directors processes and submits information from meetings of the Board of Directors to meetings of the Supervisory Board. Furthermore, the roles of the Company's bodies are monitored and evaluated by the Integration and Steering Committee of Subsidiaries. The fundamental principles of the personnel policy relating to top management are a part of the Remuneration and Salary Code. The principles of remuneration are based on the long-term interests of the Company and its shareholders. The fundamental rules for the prevention of unethical behaviour are regulated in the Ethical Declaration of the Bank, published on its website. By its strict regulation of the Bank's processes, and building control awareness at the Company, the Bank limits the room for any potential conflict of interests. The Bank protects itself from unfavourable transactions with related parties by making them accessible to the public and the auditor. The Company's bodies support anonymous whistle-blowing regarding unethical/unlawful actions, so that whistle-blowers need not fear retaliation. Clear determination of accountability and specific obligations are one of the fundamental principles applied at the Company. The integrity of accounting and financial reporting systems in the interest of accurate, timely and regular reporting of financial results of the bank is, among other things, supported by a systematic risk management by means of Risk Management Division and by the implementation of independent audit function. In addition to the annual report, the disclosure of information and communication with the surrounding are ensured by means of the company's website, through the publishing of press releases, the publishing of notices in the media or the distribution of directed notices.

Increase in registered capital
The General Meeting decides on an increase in the Company's registered capital. A Notarial Deed must be prepared with regard to an increase in the registered capital. An increase in the registered capital may be performed by subscription of new shares, an increase in the registered capital from retained earnings or funds created from profit, whose use is not stipulated by law, or by subscription of new shares, where part of the issue rate will be paid from the Company's own funds reported in the Financial Statements in the Company's equity (combined increase in the registered capital).

Acquisition of own shares
The Company may acquire its own shares only under the conditions laid down by legal regulations. The basic precondition for the acquisition of own shares is a decision of the General Meeting approving the acquisition of own shares and the conditions of such acquisition. The Board of Directors also exercises the rights of the employer in collective negotiations, approves the remuneration principles of the Company's employees, decides on the provision of credit or guarantee for a person having a special relationship towards the Company, appoints and dismisses directors of the Internal Control and Audit Unit following prior approval by the Supervisory Board or at the Supervisory Board's request. It decides on the implementation of new types of deals, grants and revokes proxies (granting and revoking of proxies requires prior approval by the Supervisory Board), grants and revokes other general authorisations and/or Powers of Attorney.

E. Objectivity and independence of the Company's bodies

One of the Supervisory Board members, Ing. Jozef Brhel, is independent. Each member of the Supervisory Board, who is not related to the Company or an entity controlled by the Company, its shareholders, members of statutory bodies and auditor in terms of property or from personal point of view, and has no income from the Company or entity controlled by the Company, except the remuneration for the work performed in the Supervisory Board, is regarded as independent. The members of the Supervisory Board are experienced in terms of management in the area of finance. At the same time, several members of the Supervisory Board were educated abroad and have international work experience. The Board of Directors has no committees. Several committees composed of employees of the company operate within the company, the most important of which are the Credit Committee, ALCO Committee and the Risk Management Committee. As at 31.12.2016 the Company has no committee for appointments and no committee for remuneration. One person responsible for remuneration is appointed in the Company. In 2016 the activities of the Audit Committee were performed by the Supervisory Board to the full extent. The members of the bodies of the Company are sufficiently qualified and experienced in the area of management, including finance.

F. Members' right of access to precise, relevant and timely information

The right of Access and tools for accessing precise, relevant and timely information are specified in the Company's Articles of Association and the Supervisory Board's Rules of Procedure. By law, the members of the Supervisory Board are entitled to verify whether the submitted information is correct. For this purpose, they may use the independent internal audit unit. Similarly, they may require the Company to ensure external advisory services at the Company's expense.

SPECIAL PART OF THE ANNUAL REPORT

The Annual Report of OTP Banka Slovensko, a.s. has been compiled according to the Accountancy Act no. 431/2002 Coll., as amended.

The Board of Directors of OTP Banka Slovensko, a.s. confirms that information comprised in the „Statement on compliance with the principles of the Corporate Governance Code for Slovakia“ include all data pursuant to Article 20 Paragraphs (6) and (7) of the Accountancy Act as amended. The subject of the Statement are information on Corporate Governance Code and methods of management, information on the activities of the General Meeting and other organs of the Company, on the structure of the registered capital and information on securities.

OTP Banka Slovensko, a.s.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders, Supervisory Board and Board of Directors of OTP Banka Slovensko, a.s. and the Audit Committee:

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of OTP Banka Slovensko, a.s. (the "Bank"), which comprise the statement of financial position as at 31 December 2016, and the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects the financial position of the Bank as at 31 December 2016, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) as adopted in the European Union (EU).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the provisions of Act No. 423/2015 Coll. on Statutory Audit and on Amendment to and Supplementation of Act No. 431/2002 Coll. on Accounting, as amended (hereinafter the "Act on Statutory Audit") related to ethical requirements, including the Code of Ethics for Auditors that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the risk factors
Individual Loan Loss Provisions for Non-Retail Loans to Clients	
Refer to Note 8 of the financial statements Loan loss provisions for large non-retail loan receivables are determined on an individual basis and require management to apply a significant level of judgement. The level of individual loan loss provisions reflects assumptions made by management in evaluating the following critical areas: a) Existence of impairment events, b) Valuation of collateral, c) Determination of expected future cash-flows. Loan loss provisions for non-retail loans assessed on an individual basis amount to EUR 35.4 million of the total recorded allowances of EUR 79.3 million as at 31 December 2016.	We tested the design and operating effectiveness of key controls management has established over the impairment evaluation processes. For loan loss provisions determined on an individual basis this included controls over the compilation and review of the credit watch list, regular client creditworthiness review processes, approval of experts' collateral valuation and management review and approval of the impairment evaluation results. On a sample of large exposures we evaluated appropriateness of provisioning methodologies and their application. We formed an independent view on the levels of provisions required by examining available external and internal information. This work involved assessing the work performed by experts used by the Bank to value the collateral or to assess the estimates of future cash flows.

	On the same sample, we also verified correctness of discounted cash flows calculations applied in deriving the recoverable amount of the loan. Where we determined that a more appropriate assumption or input in provision measurement could be made, we recalculated the provision on that basis and compared the results in order to assess whether there was any indication of error or management bias. The overall conclusion was overlaid with an analysis performed at an overall portfolio level aimed at identification of unusual or irregular developments.
VISA transaction	
Refer to Notes 7 and 27 of the financial statements The accounting for the exchange of shares of Visa Europe Ltd. for shares of Visa Inc. occurred in 2016 and required application of management judgement to determine the net result of the transaction. Management judgment was applied in determining the appropriate recognition and measurement policies for the individual elements of the transaction, including: a) Presentation of revenues from the cash consideration received in 2016; b) Recognition and measurement of a non-cash portion of the consideration received in 2016 as convertible VISA shares; and c) Recognition and measurement of a cash portion of the consideration payable in 2019. This transaction had a material non-recurring impact on the financial statements, with the total pre-tax result of the transaction amounting to a gain of EUR 4.24 million.	We have analysed all communication received by the Bank from Visa Europe Ltd. stating the terms of the transaction and the estimated value of each of the three types of consideration receivable by the Bank. We have evaluated recognition and measurement policies applied by the Bank for each element of the transaction against the criteria of the accounting standards. We have also assessed the amount of revenue recognised by the Bank for each element of the transaction, its presentation in the financial statements and appropriateness of related disclosures.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS as adopted in the EU, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Report on Information Disclosed in the Annual Report

The statutory body is responsible for information disclosed in the annual report prepared under the requirements of the Act on Accounting No. 431/2002 Coll. as amended (the "Act on Accounting"). Our opinion on the financial statements stated above does not apply to other information in the annual report.

In connection with the audit of financial statements, our responsibility is to gain an understanding of the information disclosed in the annual report and consider whether such information is materially inconsistent with the financial statements or our knowledge obtained in the audit of the financial statements, or otherwise appears to be materially misstated.

As at the issuance date of the auditor's report on the audit of financial statements, the annual report was not available to us.

When we obtain the annual report, we will evaluate whether the Bank's annual report includes information whose disclosure is required under the Act on Accounting, and based on procedures performed during the audit of the financial statements, we will express an opinion on whether:

- Information disclosed in the annual report prepared for 2016 is consistent with the financial statements for the relevant year; and
- The annual report includes information pursuant to the Act on Accounting.

Furthermore, we will disclose whether material misstatements were identified in the annual report based on our understanding of the Bank and its position, obtained in the audit of the financial statements.

1. Introduction

OTP Banka Slovensko, a.s. (hereinafter the "Bank" or "OTP Slovensko") was established on 24 February 1992 and incorporated on 27 February 1992. The Bank's seat is at Štúrova 5, 813 54 Bratislava. The Bank's identification number (IČO) is 31318916 and its tax identification number (DIČ) is 2020411074.

Members of Statutory and Supervisory Boards as at 31 December 2016

Board of Directors:	Supervisory Board:
Ing. Zita Zemková (Chairman)	József Németh (Chairman)
Ing. Rastislav Matejsko	Ágnes Rudas
Ing. Radovan Jenis	Atanáz Popov
Dr. Sándor Patyi	Ing. Jozef Brhel
	Ing. Angelika Mikócziová

Changes in the Bank in 2016:

Board of Directors:
Mgr. Peter Leško, resignation from office with effect from 30 May 2016
Ing. Radovan Jenis, start of office with effect from 15 August 2016
Supervisory Board:
Atanáz Popov, resignation from office with effect from 12 April 2016 and re-elected to office with effect from 13 April 2016
Péter Forrai, resignation from office with effect from 22 September 2016

Scope of Business

The Bank holds a universal banking licence issued by the National Bank of Slovakia ("NBS" or "National Bank of Slovakia") and carries out business in Slovakia.

The core activity of the Bank is the provision of a wide range of banking and financial services to various entities, mainly to large- and mid-sized enterprises, private individuals, and institutional customers.

The Bank's core scope of business, under the banking licence from the NBS, is as follows:
- Acceptance of deposits;
- Provision of loans;
- Provision of investment services, investment activities and non-core services under Act No. 566/2001 Coll. on Securities and Investment Services within the scope of the banking licence granted by the NBS;
- Trading on own account with money market financial instruments in both the local and foreign currency including the exchange activity;
- Trading on own account with capital market financial instruments in both the local and foreign currency;
- Trading on own account with coins made of precious metals, commemorative bank notes and coins, with bank note sheets and sets of circulating coins;
- Administration of receivables in the client's account including related advisory services;
- Financial leasing;
- Domestic transfers of funds and cross-border transfers of funds (payments and settlements);
- Issuance and administration of payment instruments;
- Granting of bank guarantees, opening and validation of letters of credit;
- Issuance of securities, participation in issues of securities and provision of related services;
- Financial brokerage;
- Business consulting services;
- Safe custody;
- Depository services pursuant to separate regulations;
- Banking information services;
- Renting of safe deposit boxes;
- Special mortgage instruments pursuant to Article 67 par. 1 under provision 2 par. 2 n) to Act No. 483/2001 Coll.; and
- Processing of bank notes, coins, commemorative bank notes and coins.

The Bank is authorised to provide investment services, investment activities, and non-core services under the Act on Securities as follows:

- Receipt and transfer of the client's instruction related to one or more financial instruments in relation to financial instruments: negotiable securities, money market instruments, trust certificates or securities issued by foreign entities of collective investment, swaps related to interest rates or earnings which can be settled by delivery or in cash;
- Execution of the client's instruction at its own account in relation to financial instruments: negotiable securities, money market instruments, trust certificates or securities issued by foreign entities of collective investment;
- Trading at own account in relation to financial instruments: negotiable securities, money market instruments, trust certificates or securities issued by foreign entities of collective investment, currency futures and forwards which can be settled by delivery or in cash;
- Investment advisory in relation to financial instruments: negotiable securities, money market instruments, trust certificates or securities issued by foreign entities of collective investment;
- Firm commitment underwriting and placement of financial instruments in relation to negotiable securities;
- Placement of financial instruments without firm commitment in relation to financial instruments: negotiable securities, trust certificates or securities issued by foreign entities of collective investment;
- Custody of trust certificates or securities issued by foreign

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

entities of collective investment, custody and administration of negotiable securities at the client's account excluding holder's administration, and related services, mainly administration of cash and financial collaterals;
- Trading with foreign exchange values if relevant to the provision of investment services;
- Conducting of investment research and financial analysis or other form of general recommendation related to transactions with financial instruments;
- Services related to underwriting of financial instruments;
- Execution of orders on behalf of clients under the provision of Article 6 (1b) of the Act on Securities with respect to swaps related to interest rates or interest income that may be settled physically or in cash, as stipulated in the provision of Article 5 (1d) of the Act on Securities; and
- Dealing on own account under the provision of Article 6 (1c) of the Act on Securities with respect to swaps related to interest rates or interest income that may be settled physically or in cash, as stipulated in the provision of Article 5 (1d) of the Act on Securities.

Operating profit/loss was mainly generated from the provision of banking services in Slovakia.

Shareholders' Structure

The majority shareholder of the Bank is OTP Bank Nyrt. Hungary ("OTP Bank Nyrt.") with 99.26% share of the Bank's share capital. OTP Bank Nyrt. is the direct parent company of the Bank. The shareholders' structure (with respective shares exceeding 1%) and their share on the share capital are as follows:

Name/Business Name	Share in Subscribed Share Capital as at 31 Dec 2016	Share in Subscribed Share Capital as at 31 Dec 2015
OTP Bank Nyrt. Hungary	99.26%	99.26%
Other minority owners	0.74%	0.74%

The shareholders' shares of voting rights are equal to their shares of the share capital.

Organisational Structure and Number of Employees

As at 31 December 2016, the Bank operated 5 regional centres (31 December 2015: 5) and 61 branches (31 December 2015: 60) in Slovakia.

As at 31 December 2016, the full-time equivalent of the Bank's employees was 662 (31 December 2015: 662 employees), of which 24 managers (31 December 2015: 25).

As at 31 December 2016, the actual registered number of employees was 657 (31 December 2015: 669), of which 24 managers (31 December 2015: 24).

"Managers" means members of the Board of Directors and managers directly reporting to the statutory body or a member of the statutory body.

The full-time equivalent of employees and the actual registered number of employees does not include members of the Supervisory Board.

As at 31 December 2016, the Bank's Supervisory Board had 5 members (31 December 2015: 6).

Regulatory Requirements

The Bank is subject to the banking supervision and regulatory requirements of the NBS. These regulations include indicators, and limits pertaining to liquidity, capital adequacy ratios, risk management system and the currency position of the Bank.

Data on Consolidating Entity

The Bank is part of the consolidation group of OTP Group; consolidated financial statements for all groups of consolidation group entities are prepared by Országos Takarékpénztár és Kereskedelmi Bank Nyrt., the parent company with its seat at Nádor utca 16, 1051 Budapest, Hungary ("OTP Bank Nyrt."). OTP Bank Nyrt. is also an immediate consolidating entity of the Bank.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Data on the Subsidiary

Company's Name	Seat	Type of Interest
Faktoring SK, a.s. v likvidácii	Tallerova 10, 811 02 Bratislava	Direct

In 2010, as part of the strategic decisions made at the OTP Group level, a decision was made to terminate the activities of OTP Faktoring Slovensko, a.s. On 1 April 2011, OTP Faktoring Slovensko, a.s. entered into liquidation and its business name was changed to "Faktoring SK, a.s. v likvidácii". As at 31 December 2015, the company's liquidation was completed. In 2015, the Bank created additional provisions in the amount of EUR 58 thousand to cover an expected loss from the liquidation. The company's General Meeting was held during 2Q 2016 at which the liquidation conclusions were confirmed and a decision on the distribution of the liquidation balance was approved. In connection with the payment of the liquidation balance of EUR 93 thousand, the Bank derecognised the investment in the subsidiary and reversed the created provisions.

2. Principal Accounting Policies

The principal accounting policies adopted in the preparation of these separate financial statements are set out below:

Statement of Compliance

The separate financial statements of the Bank for the year ended 31 December 2016 and comparative data for the previous reporting periods have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

IFRS as adopted by the EU do not differ from the standards issued by the International Accounting Standards Board ("IASB"), except for portfolio hedge accounting under IAS 39, which has not been approved by the EU. The Company has determined that portfolio hedge accounting under IAS 39 would not impact these separate financial statements had it been approved by the EU at the reporting date.

Adaption of New and Revised Standards

a) Standards and Interpretations Effective in the Current Period

The Bank adopted all of the new and revised Standards and Interpretations issued by the International Accounting Standards Board (the IASB) and the International Financial Reporting Interpretations Committee (IFRIC) of the IASB as adopted by the EU that are relevant to its operations and effective for reporting periods commencing 1 January 2016:

- Amendments to various standards "Improvements to IFRS (cycle 2010 – 2012)" resulting from the annual improvement project of IFRS (IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16, IAS 24 and IAS 38) primarily with a view to removing inconsistencies and clarifying wording (effective for annual periods beginning on or after 1 February 2015).

- Amendments to IAS 19 "Employee Benefits" (revised in 2011) with the objective of clarifying the application of the standard to benefit plans that require employees or third parties to make contributions to the costs of benefits (effective for annual periods beginning on or after 1 February 2015).

- Amendments to IAS 16 "Property, Plant and Equipment" and IAS 41 "Agriculture" – Bearer Plants. The amendments require that biological assets meeting the definition of bearer plants are recognised as property, plant and equipment under IAS 16 (effective for annual periods beginning on or after 1 January 2016).

- Amendments to IFRS 11 "Joint Arrangements" – Accounting for Acquisitions of Interests in Joint Operations – applicable to the acquisition of interests in joint operations and the contribution of a business to joint operations upon inception, and regulation of an operator's recognition of the acquisition of an interest in joint operations whose activities constitute a "business" (effective for annual periods beginning on or after 1 January 2016).

- Amendments to IAS 16 "Property, Plant and Equipment" and IAS 38 "Intangible Assets" – Clarification of Acceptable Methods of Depreciation and Amortisation – the amendments prohibit entities from using a revenue-based depreciation method for items of property, plant and equipment (effective for annual periods beginning on or after 1 January 2016).

- Amendments to various standards "Improvements to IFRS (cycle 2012 – 2014)" resulting from the annual improvement project of IFRS (IFRS 5, IFRS 7, IAS 19 and IAS 34) primarily with a view to removing inconsistencies and clarifying wording (effective for annual periods beginning on or after 1 January 2016).

- Amendments to IAS 27 "Separate Financial Statements" – Equity Method in Separate Financial Statements allows the entity to apply the equity method when recognising investments in subsidiaries, joint ventures and associates in the

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

entity's separate financial statements (effective for annual periods beginning on or after 1 January 2016).

- Amendments to IAS 1 "Presentation of Financial Statements" – Disclosure Initiative – the amendments are aimed at improving disclosure efficiency and encouraging entities to apply a professional judgement when determining which information is to be disclosed in their financial statements (effective for annual periods beginning on or after 1 January 2016).

- Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (effective for annual periods beginning on or after 1 January 2016).

The adoption of these standards and interpretations did not require any modification of the Bank's accounting policies.

b) Standards and Interpretations in Issue but not yet Effective

At the preparation date of these financial statements, the following standards and interpretations did not apply to the reporting period beginning 1 January 2016 and were not effective:

IASB documents endorsed by the EU:
- IFRS 15 "Revenue from Contracts with Customers" – The core principle of the new standard is to allow the entity to recognise revenues to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for such goods or services (effective for annual periods beginning on or after 1 January 2018).

- IFRS 9 "Financial Instruments", which is to supersede IAS 39 Financial Instruments: Recognition and Measurement. The final wording includes requirements for the classification and measurement of financial assets and financial liabilities; it also includes an expected credit loss model and hedge accounting (hedging) (effective for annual periods beginning on or after 1 July 2018).

Classification and measurement –IFRS 9 introduces a three-step model that reflects changes in the credit quality since the initial recognition. Impairment-related requirements are based on an expected credit loss model ("ECL") that is to supersede the current incurred loss model under IAS 39.

The first level includes financial instruments with no significant increase in credit risk since initial recognition. For these assets, the Bank records a 12-month ECL, and interest income is recognised based on the gross book value of assets.

The second level includes financial instruments with a significant increase in credit risk since the initial recognition, but no objective proof of impairment exists. For these assets, the Bank records an ECL for the whole life cycle, and interest income is recognised based on the gross book value of assets.

The third level includes financial instruments with a significant increase in credit risk since initial recognition, and objective proof of their impairment exists. For these assets, the Bank records an ECL for the whole life cycle, and interest income is recognised based on the net book value of assets.

The ECL estimation should represent a probability-weighted result and the effect of the time value of money should be based on adequate and documentable information which is available without unreasonable costs or excessive effort.

Hedge accounting – IFRS 9 introduces a substantially modified model for hedge accounting with extended requirements for the disclosure of risk management information.

Own credit risk – IFRS 9 removes the volatility in profits or losses arising from obligations issued by the Bank caused by changes in own credit risk, when profits or losses were measured at fair value. Profits arising from a deterioration of the entity's own credit risk will no longer be recognised in the income statement, but rather in equity.

The Bank has elected not to adopt the standards and interpretations that were issued as at the reporting date, but were not yet effective before their effective dates.

c) Standards and Interpretations not yet Endorsed by the EU

At present, IFRS as adopted by the EU do not significantly differ from the regulations adopted by the International Accounting Standards Board (IASB), except for the following standards, amendments and interpretations that were not endorsed for use as at 31 December 2016.

IASB documents not yet adopted by the EU:

- IFRS 14 "Regulatory Deferral Accounts" is only effective for reporting entities that are first-time IFRS adopters. The entities are allowed to continue recognising amounts related to regulatory deferral accounts in accordance with their previous accounting standards; however, the effect of price regulation must be recognised separately from other items (effective for annual periods beginning on or after 1 January 2016).

The Bank's management expects that the adoption of new IFRS 9 will have a significant impact on the financial statements primarily with respect to the classification of financial

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

instruments and expected losses from credit risks. Adoption will lead to significant changes in the Bank's processes and systems as there will be a volume change in the provisioning. Quantification of the impact will be prepared in the following periods. The Bank's management also expects that adopting the other standards, amendments to the existing standards and interpretations will have no material impact on the financial statements of the Bank in the period of initial application.

Purpose of Preparation

These separate financial statements were prepared in Slovakia so as to comply with the article 17a) of Act on Accounting No. 431/2002 Coll. as amended, under special regulations - Regulation (EC) 1606/2002 of the European Parliament and of the Council on the Application of International Accounting Standards (IFRS).

The financial statements are intended for general use and information, and are not intended for the purposes of any specific user or consideration of any specific transactions. Accordingly, users should not rely exclusively on these financial statements when making decisions.

Basis for the Financial Statements Preparation

Separate financial statements were prepared under the historical cost basis, except for certain financial instruments, which have been recognised at fair value. The financial statements were prepared under the accrual principle of accounting: transactions and recognised events are recorded in the period to which they are related in time.

Separate financial statements were prepared under the assumption that the Bank will continue as a going concern in the foreseeable future.

The reporting currency used for disclosure in these separate financial statements is the Euro, which is rounded to thousands of euros, unless stipulated otherwise. The amounts in brackets refer to negative values.

Significant Accounting Assessments and Judgements

The presentation of financial statements in conformity with IFRS requires the management of the Bank to make judgements about estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at the reporting date, and their reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and future changes in the economic conditions, business strategies, regulatory requirements, accounting rules or/and other factors could result in a change in estimates that could have a material impact on the reported financial position and results of operations.

Significant areas of judgment include the following:

In connection with the current economic environment, based on the currently-available information the management has considered all relevant factors which could have an impact on the valuation and impairment of assets and liabilities in these financial statements, impact on the liquidity, funding of operations of the Bank and other effects these may have on financial statements. All such impacts, if any, have been reflected in these financial statements. The Bank's management continues to monitor the situation and any further possible impacts of the economic environment on its operations.

The provisioning for loan losses and identified contingent liabilities includes many uncertainties as to the outcomes of the aforementioned risks and requires the Bank's management to make subjective judgments when estimating loss amounts. As described below, the Bank creates provisions for the impairment of loans and receivables where there is objective evidence that, as a result of past events, the estimated future cash-flows are negatively impacted. These provisions are based on the Bank's historical and current experience concerning default rates, recovery rates of loans, or time needed from a loss event to loan default, as well as subjective judgments of the Bank's management about estimated future cash-flows. Considering current economic conditions, the outcome of these uncertainties could differ from the amounts of impairment provisions recognised as at 31 December 2016 and the difference could be material.

The amounts recognised as provisions for liabilities are based on the judgement of the Bank's management and represent the best estimate of expenditures required to settle a liability of uncertain timing or amount resulting from an obligation.

In recent years, income tax rules and regulations underwent significant changes. In connection with the broad and complex issues affecting the banking industry, there are no historical precedents and/or interpretation judgments. In addition, tax authorities have broad powers as regards the interpretation of the effective tax laws and regulations during the tax audit of a taxpayer. As a result, there is a higher degree of uncertainty as to the final outcome of a potential audit conducted by tax authorities.

Translation of Amounts Denominated in Foreign Currencies

Assets and liabilities denominated in a foreign currency are translated to euros using the reference exchange rate determined and announced by the European Central Bank valid as at the reporting date. Revenues and expenses denominated in

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

a foreign currency are recognised as translated using the exchange rate valid as at the transaction date. Foreign exchange gains/losses on transactions are recognised on the statement of comprehensive income line *"Gains/(losses) on financial transactions, net"*.

Cash and Cash Equivalents

Cash and cash equivalents comprise cash and balances in demand deposits with the NBS, and only include amounts of cash immediately available and highly-liquid investments with an original maturity of up to three months. For the purposes of the cash flow statement, such amounts exclude a mandatory minimum reserve deposited with the NBS. The items are recorded in the statement of financial position line *"Cash, due from banks and balances with the National Bank of Slovakia"*.

Placements with Other Banks and Loans to Other Banks

Placements with other banks and loans to other banks are stated at amortised costs net of provisions for possible placement losses in the statement of financial position line *"Placements with other banks, net of provisions for possible placement losses"*. Interest is accrued using the effective interest rate method and credited to the profit or loss based on the amount of an outstanding receivable. Such interest is recognised in the statement of comprehensive income in *"Interest income"*.

Financial Instruments - Initial Recognition

All financial assets are recognised and derecognised on the trade date on which the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for financial assets at fair value through profit or loss, which are initially measured at fair value.

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, available-for-sale financial assets, held-to-maturity financial investments, and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial Assets at Fair Value through Profit or Loss

Financial assets at fair value through profit or loss include securities and derivative financial instruments held for trading and for the purposes of profit generating. At acquisition, held-for-trading securities are measured at cost. Subsequently, they are remeasured to fair value. Revaluation gains and losses are recognised in the statement of comprehensive income line *"Gains/(losses) on financial assets, net"*.

If quoted market prices are not available, the fair value of debt securities is determined based on a model using valuation techniques.

Net interest income from securities at fair value through profit or loss is accrued using the effective interest rate method and recognised directly in the statement of comprehensive income line *"Interest income"*.

Available-for-sale financial assets

Available-for-sale financial assets include securities that the Bank intends to hold for an indefinite period or which may be sold as liquidity requirements arise or market conditions change. Upon acquisition, these investments are measured at cost. Available-for-sale financial assets are then remeasured to fair value. Gains and losses on revaluation are recognised in equity as *"Revaluation of available-for-sale financial assets"*. Upon sale of the available-for-sale financial asset, accumulated gains/losses from revaluation previously recognised in equity are recognised through the statement of comprehensive income as *"Gains/(losses) on financial assets, net"*.

Interest income is accrued using the effective interest rate and recognised directly through the statement of comprehensive income as *"Interest income"*.

Available-for-sale financial assets also include investments with ownership interest less than 20% of the registered capital and/or voting rights. These investments are measured at cost less impairment provisions for a permanent decrease in value, as their market price in an active market cannot be reliably measured. The Bank assesses the value of such investments on an individual basis and compares movements in the equity of companies to their cost. A continued significant decrease in the equity is regarded by the Bank as objective evidence of the impairment and, thus, provisions are recorded. Impairment losses are recognised in the statement of comprehensive income line *"Gains/(losses) on financial assets, net"*.

Treasury Bills

Treasury bills are debt securities issued by the central bank with a maturity of up to 12 months. Treasury bills are recognised as *"Available-for-sale financial assets"* in the separate statement of financial position. The accounting principles stated in the section *"Available-for-sale financial assets"* are applied to measure treasury bills.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Sale and Repurchase Agreements

Debt or equity securities sold under sale and repurchase agreements are recognised as assets in the statement of financial position line *"Financial assets at fair value through profit or loss"* and *"Available-for-sale financial assets"* and the contracted payable is recorded in *"Due to banks and deposits from the National Bank of Slovakia and other banks"* and/or in *"Amounts due to customers"*.

Securities purchased under agreements to resell securities are recorded as assets in the statement of financial position line *"Cash, due from banks and balances with the National Bank of Slovakia"*, and/or in *"Placements with other banks, net of provisions for possible losses"*, or in *"Loans and receivables, net of provisions for possible losses"*.

The difference between the sale and repurchase prices is treated as interest and accrued over the life of each REPO agreement using the effective interest rate method.

Loans and Receivables and Provisions for Possible Losses

Loans to customers are stated at amortised cost net of provisions for loan losses in the statement of financial position line *"Loans and receivables, net of provisions for possible losses"*. Interest is accrued using the effective interest rate method and credited to the profit or loss based on the amount of an outstanding receivable in the line *"Interest income"*. Interest is no longer accrued on loan receivables when bankruptcy is declared on a debtor, upon the start of the restructuring proceedings by law, in the case of withdrawal by either party from the loan agreement or in extraordinary cases when interest is waived based on the Bank's decision.

Fees and commissions related to loans are gradually amortised over the contractual term of the loan using the effective interest rate method and are recognised in the line *"Loans and receivables, net of provisions for possible losses"*.

In line with the Bank's objectives, loan receivables acquired through assignment are classified in accordance with IAS 39 as *"Loans and receivables"*. Upon initial recognition, loans are measured at cost including all transaction costs related to acquisition. For purchased loans, this means that their initial measurement equals the amount of financial settlement for assigned receivables.

Any differences between the carrying amount as at the date of acquisition of loan receivables acquired by an assignment and the due amount (acquisition cost, transfer fee, margin differentials etc.) are accrued over the whole maturity period of the loan using the effective interest rate method.

As at the date of the financial statements, the Bank assesses and reassesses provisions for provided loans.

Provisions cover estimated losses from impairment of loans if objective proof of impairment exists as a result of one or more loss events that occurred after the initial loan recognition, and when such event(s) has(have) an impact on the estimated recoverable amount. Provisions representing the impairment of loan receivables are recognised if their carrying amount is higher than their estimated recoverable amount. The recoverable amount is the present value of estimated future cash flows including cash flows from the realisation of collateral using the discount rate on the loan as at the recognition date.

Objective proof of loan impairment includes observable data which documents loss events and is available to the Bank. In April 2016, the Bank introduced Group methodology for monitoring and assessing loss events that was initiated by the parent bank with the aim of unifying the definition of loss events at subsidiaries of OTP Bank Nyrt. Hungary.

These loss circumstances are:

Objective fact – payment delay of more than 90 days and such delays are material;
- Any credit liability of a debtor is overdue by more than 90 days and the amount owed exceeds the materiality level and/or;
- A debtor breaches a defined limit of an overdraft loan facility (limit exceeded) and the limit is exceeded for more than 90 days and the amount of the exceeded limit exceeds the materiality level.

Probability of default – probability that a debtor will not be able to fully repay its credit liabilities;
- The financial institution will cease to charge interest on a credit liability;
- The financial institution recognises a specific adjustment to a loan resulting from a clearly significant decrease in the loan's credit quality after the financial institution has an exposure;
- The financial institution sells the credit liability with a material loss;
- The financial institution agrees to the forced restructuring of the credit liability which will probably result in an impaired financial liability triggered by a material waiver, or postponement of the payment of the principal, interest or fees. If capital exposures are assessed based on a PD/LGD approach, this also means the forced restructuring of the shares;
- The financial institution filed for the debtor's bankruptcy, or issued a similar order in relation to the debtor's credit liabilities to the financial institution, parent company or any of its subsidiaries; and

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

- The debtor filed for bankruptcy or bankruptcy or a similar regime was declared in respect of the debtor, and the debtor enabled or postponed the settlement of credit liabilities to the financial institution, parent company or any of its subsidiaries.

Loans identified as impaired are internally classified as default loans.

When classifying impairment, the Bank has set a materiality level for retail clients of EUR 50 per exposure and for non-retail clients of EUR 250 per client.

The Bank assesses credit risk on an individual and portfolio basis and creates specific and portfolio provisions. The Bank creates specific provisions for individually-significant loan receivables and portfolio provisions for the loan receivables that are not individually significant, or for which no impairment was identified based on an individual assessment.

Provisions are recorded and reversed through *"Provisions for impairment losses on loans and off-balance sheet, net"* in the statement of comprehensive income.

The Bank recognises write-offs of loans as *"Provisions for impairment losses on loans and off-balance sheet, net"* with releasing the relevant provisions for loan losses. Written-off loans and advances made to clients are recorded on the off-balance sheet, whereas the Bank continues to monitor and recover such loans except for loans where the Bank lost the legal title for their recovery or where the Bank ceased the recovery process as the recovery costs exceed the amount receivable. Each subsequent income on written-off receivables is recognised in the statement of comprehensive income as *"Provisions for impairment losses on loans and off-balance sheet, net"*.

Detailed information about the credit risk management is stated in Note 36 Credit Risk.

Held-to-Maturity Financial Investments

Held-to-maturity financial investments represent debt financial assets with pre-defined date of maturity that the Bank intends and has the ability to hold until their maturity. At acquisition, such assets are measured at cost, which include transaction costs. These investments are subsequently remeasured to the amortised cost based on the effective interest rate method, net of provisions for impairment. Interest income, discounts and premiums on held-to-maturity securities are accrued using the effective interest rate method and recognised directly in the statement of comprehensive income line *"Interest income"*.

Investments in Subsidiaries

Investments in subsidiaries include the Bank's investments in companies with an ownership interest more than 50% of the registered capital or more than 50% of the voting rights. Investments in subsidiaries are recognised at cost less provisions for the impairment.

Impairment losses are recognised in the statement of comprehensive income line *"Gains/(losses) on financial assets, net"*. Income from dividends is recognised in the statement of comprehensive income as *"Gains/(losses) on financial assets, net"* at the moment when the Bank's title to receive dividends originates.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Non-Current Tangible Assets

Non-current tangible assets (Property, Plant and Equipment) are stated at cost, less accumulated depreciation and accumulated impairment losses. Depreciation charges are computed using the straight-line method over the estimated useful lives of the assets corresponding to future economic benefits from assets based on the annual percentage depreciation rates as follows:

Type of Asset	Useful Life in Years	Depreciation Rate per Annum in %
ATMs and motor vehicles, computers, office machines, telecommunication equipment, intangible assets	4	25.0
Software	5	20.0
Software	2	50.0
Software	3	33.3
Fixtures, fittings and office equipment, software, machines and equipment	6	16.7
Computers, machines, equipment, ATMs, furniture	8	12.5
Technical upgrade of leased buildings	10	10.0
Time vaults	10	10.0
Heavy bank program (safes), transportation means, air-conditioning facilities.	12	8.4
Technical upgrade of leased buildings	15	6.7
Technical upgrade of leased buildings	10	10.0
Technical upgrade of leased buildings	20	5.0
Buildings and structures	40	2.5

Depreciation of tangible assets is charged to the statement of comprehensive income line *"General administrative expenses"*. Depreciation commences in the month that such assets are put into use. Land and works of art are not depreciated.

At the reporting date, the Bank reviews the carrying value of its non-current tangible assets, and the estimated useful life and the method of depreciation thereof. The Bank also reassesses the recoverable amount of the asset, which is estimated to determine the extent (if any) of the impairment loss. Where the carrying value of buildings and equipment is greater than the estimated recoverable amount, it is written down to the estimated recoverable amount through the profit or loss. If the impairment is of a temporary nature, impairment provisions are recognised in the statement of comprehensive income as *"Other operating revenues/(expenses), net"*.

At the reporting date, the Bank also assesses whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset. If the estimated recoverable amount exceeds the carrying value of an asset, it is dissolved through the statement of comprehensive income in *"Other operating revenues/(expenses), net"*.

Non-Current Intangible Assets

Non-current intangible assets are stated at cost, less accumulated amortisation and accumulated impairment losses. The Bank amortises non-current intangible assets using the straight-line method over the estimated useful lives of the assets corresponding to future economic benefits from assets based on the annual percentage depreciation rates. In the Bank, non-current intangible assets mainly include software.

Amortisation of non-current intangible assets is recognised in the statement of comprehensive income line *"General administrative expenses"*. Amortisation starts in the month when the assets are put into use.

At the reporting date, the Bank reviews the carrying amount of its intangible assets, their estimated useful lives and methods of amortisation.

Accrued Interest Receivable/Payable

Accrued interest on loans and placements made is recognised in lines *"Placements with other banks, net of provisions for possible placement losses" and "Loans and receivables, net of provisions for possible losses"*. Accrued interest on received loans and deposits is recognised in line *"Due to banks and deposits from the National Bank of Slovakia and other banks"* and *"Amounts due to customers"*. Accrued interest on securities is recognised for individual items of securities in the statement of financial position.

The Bank recognises accrued interest on loans, deposits and securities using the effective interest rate method.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Recognition of Revenues and Expenses

Revenues and expenses are recognised in the profit or loss for all interest-bearing instruments on an accrual basis using the effective interest rate. Interest income on securities includes revenues from fixed and floating interest rate coupons and accrued discount and premium.

For loans in relation to which restructuring proceedings started pursuant to the Act on Bankruptcy and Restructuring, interest income is not recognised in the profit or loss from the commencement date of such restructuring proceedings, as it is unlikely that interest income will result in economic benefits for the Bank. If the court confirms the restructuring plan, the Bank loses its title to such interest.

Fees and commissions are recognised in the profit or loss on an accrual basis. Fees and commissions related to the provision of loans are accrued over the entire maturity period of a loan and recognised in the statement of comprehensive income line *"Interest income"*.

Fees and commissions that are not part of the effective interest rate are recognised as expenses and income in the statement of comprehensive income line *"Fee and commission expense"* and *"Fee and commission income"* on an accrual basis and as at the date of transaction.

Income from dividends is recognised in the period of the origin of the title to receive dividends and is recognised in the statement of comprehensive income as *"Gains/(losses) on financial assets, net"*.

Other expenses and revenues are recognised in the relevant period on an accrual basis.

Income Tax and Other Tax

The annual income tax liability is based on the tax base calculated from the profit/loss under IFRS and Slovak tax law. To determine the current income tax, tax rates valid as at the reporting date are applied.

The deferred income tax is calculated by the Bank using the balance sheet liability method in respect of all temporary differences between the tax bases of assets and liabilities and their carrying amount in the statement of financial position.

Deferred income taxes are computed using tax rates set for the subsequent taxable period and applicable at the moment of the tax asset realisation or the tax liability recognition. The tax rate of 21% remains applicable for 2017.

Deferred tax assets are recognised if it is probable, beyond any significant doubt, that profits will be available in the future against which deductible temporary difference can be utilised. Tax assets are reassessed as at the reporting date.

Deferred tax is recognised in the profit or loss as *"Income Tax"*, except for the deferred tax arising from items that are recognised through equity, such as available-for-sale financial assets. In this case, the deferred tax is also recognised through equity as part of items of comprehensive income.

The Bank is a payer of the value added tax and selected local taxes. Taxes are recognised in the statement of comprehensive income line *"General administrative expenses"*, except for the value added tax on acquisition of tangible and intangible assets, which enters the cost of non-current tangible and intangible assets.

Special Levy on Selected Financial Institutions and Resolution Fund

As of 1 January 2012, Act No. 384/2011 Coll. on the Special Levy of Selected Financial Institutions came into effect. The levy calculation is based on the amount of the Bank's liabilities less equity, subordinated debt and deposits protected by the Deposit Protection Fund. In 2012, Act No. 233/2012 Coll. amending and supplementing the Act on the Special Levy of Financial Institutions was adopted with effect from 1 September 2012. The amendment primarily regulates the base for levy calculation, where the amount of deposits protected by the Deposit Protection Fund does not decrease the base for levy calculation, and stipulates the conditions under which the rate for the levy calculation is decreased.

Average recalculated figures derived from data as at the last date of a calendar month of the preceding calendar quarter are used to determine the base for calculating the levy for the relevant calendar quarter. The levy is paid in quarterly instalments at the beginning of the relevant quarter.

The Ministry of Finance of the Slovak Republic published in the Collection of Laws Decree No. 253 dated 10 September 2014 on the meeting of the condition for the rate of a special levy for certain financial institutions under Article 8 (5) of Act 384/2011 Coll., in which the Ministry declares the meeting of the condition under Article 8 (1) of Act 384/2011 Coll. with effect from 25 September 2014. The Bank had no obligation for the special levy for 4Q 2014. The rate for calculating the special levy for selected financial institutions was reduced from 0.4% to 0.2% for 2015.

On 12 October 2016, the Ministry of Finance of the Slovak Republic published in the Collection of Laws Act No. 281/2016 Coll. amending Act No. 384/2011 Coll. on the Special Levy of Selected Financial Institutions. It repealed the Decree of the Ministry of Finance of the Slovak Republic No. 253/2014 Coll. on meeting the condition for the rate of a special levy for certain financial institutions under Article 8 and added a new Article 11, which stipulates the rate of the levy for 2017 to 2020 in the amount of 0.2% p.a.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

The rate for calculating the special levy for selected financial institutions remained in the amount of 0.2%.

On 1 January 2015, Act No. 371/2014 on the resolution of crisis situations on the financial market became effective and introduced an obligation to banks to pay a contribution to the resolution fund. The resolution fund is financed from financial contributions made by financial institutions, ie banks and selected security dealers. The financial funds of the national fund are deposited in a separate account held with the National Bank of Slovakia. The administration of such funds is provided by the Deposit Protection Fund. The resolution fund may be used under strictly defined conditions for the resolution of crisis situations.

The Bank recognises the levies as incurred in the statement of comprehensive income line *"General administrative expenses". (Note 28)*

Derivative Financial Instruments

In the ordinary course of business, the Bank is a party to contracts for derivative financial instruments, which represent a low initial value investment compared to the notional value of the contract. Generally, derivative financial instruments include currency forwards and currency swaps. The Bank mainly uses these financial instruments for business purposes and to hedge its currency exposures associated with transactions in financial markets.

Derivative financial instruments are initially recognised at acquisition cost, which includes transaction expenses and which is subsequently again re-measured to fair value. Their fair values are determined using valuation techniques by discounting future cash flows by a rate derived from the market yield curve and foreign currency translations using the ECB rates valid on the calculation day.

Changes in the fair value of derivative financial instruments that are not defined as hedging derivatives are recognised in the statement of comprehensive income line *"Gains/(losses) on financial transactions, net"*. Derivatives with positive fair values are recognised as assets in the in the statement of financial position line *"Financial assets at fair value through profit or loss"*. Derivatives with negative fair values are recognised as liabilities in the statement of financial position line *"Other liabilities"*.

Transactions with derivative financial instruments, although providing the Bank with an effective economic hedging in risk management, do not qualify for the recognition of hedging derivatives under specific rules of IAS 39, and therefore, they are recognised in the accounting books as derivative financial instruments held for trading, and gains and losses from the fair value are recognised as *"Gains/(losses) on financial transactions, net"*.

Liabilities from Issued Debt Securities

Liabilities from issued debt securities are recognised at amortised cost. The Bank mainly issues mortgage bonds. Interest expense is included in the statement of comprehensive income line *"Interest expense"*, and it is accrued using the effective interest rate method.

Subordinated Debts

Subordinated debt refers to the Bank's external debt where in the event of the Bank's bankruptcy, composition or liquidation the entitlement to its repayment is subordinated to liabilities to other creditors. The Bank's subordinated debt is recognised on a separate line of the statement of financial position as *"Subordinated debt"*. Interest expenses paid for the received subordinated debt are recognised in the statement of comprehensive income line *"Interest expense"*.

Provision for Off-Balance Sheet Liabilities

In the ordinary course of business, off-balance sheet liabilities, such as guarantees, financial commitments to grant a loan and a letter of credit are recorded by the Bank. Provisions for expected losses from off-balance sheet contingent liabilities are recognised in such amounts that enable the covering of possible future losses. The management determines the adequacy of the provisions based on the reviews of individual items, recent loss experience, current economic conditions, the risk characteristics of the various categories of products, and other pertinent factors.

To cover estimated losses on contingent unused loans, guarantees and letters of credit, the Bank creates provisions in the case when a payable - as a result of past events - has to be settled and it is likely that such settlement of a payable will require a cash outflow and the amount payable can be reliably determined. The calculation of the provisions for off-balance sheet liabilities is analogical to credit exposures. Issued guarantees, irrevocable letters of credit, and unused loan commitments are subject to similar monitoring of credit risks and credit principles, as in the case of extended loans.

Provisions for estimated losses are recognised through the profit or loss when the Bank has a present legal or implied obligation to make a payment as a result of a past event, when it is probable that an outflow of sources representing economic benefits will be required, and when a reliable estimate of the amount to be paid can be reliably determined.

Provisions are recognised in the statement of financial position line *"Provisions for liabilities"*. Expenses for the recorded provision are recognised in the statement of comprehensive income as *"Provisions for impairment losses on loans and off-balance sheet, net"*.

Provision for Liabilities and Employee Benefits

The amount of provisions for liabilities is recognised as an expense and a liability when the Bank is exposed to potential liabilities from litigation or indirect liabilities as a result of past events, and when it is probable that to settle such liabilities a cash outflow will be required, which will result in the reduction of resources embodying the economic benefits and a reasonable estimate of the amount of the resulting loss can be made. Any amount related to the recognition of the provision for liabilities is recognised in the profit or loss for the period.

In line with the valid legislation, the Bank provides a lump-sum payment upon retirement. The recorded provision represents a liability to an employee that is calculated using the set actuarial methods; the calculation is based on discounted future expenditures. As at the reporting date, the liability is measured at the present value.

The provision is recognised in the statement of financial position line *"Provisions for liabilities"*. Expenses for the recorded provision are recognised through the statement of comprehensive income line *"General administrative expenses"*.

Representatives of the Bank's statutory body and selected employees receive remuneration for rendered services in a form of a cash-settled payment and an equity-settled financial instrument in the form of parent company's shares. The remuneration is paid based on the compensation policy of the OTP Group. In the case of a cash-settled remuneration, the payment is recognised in the statement of comprehensive income in *"General administrative expenses"* with the counter entry in *"Other liabilities"* in the statement of financial position. A portion of the remuneration in the form of a financial instrument being the parent company's shares is recognised in the statement of comprehensive income in *"General administrative expenses"* with the corresponding entry in *"Reserve funds"* in the statement of financial position (see Note 32). The Bank recognises remuneration and share-based payments from the moment when the claim can be exercised.

The compensation policy within the OTP Group is consistent with the compensation policy and principles for risk management under Act No. 483/2001 Coll. on Banks, as amended.

Bank's Regulatory Capital

In the administration of its regulatory capital, the Bank aims to ensure business prudence and to maintain the Bank's regulatory capital continuously at least at the level required for Bank's own funds while taking into account the defined minimum requirement in respect of the system for the assessment of internal capital adequacy for the relevant year and the relevant amounts of capital buffer.

To accomplish this, when preparing the yearly business plan the Bank also prepares a plan of adequacy of regulatory capital considering its business objectives and applying the knowledge gained from previous experience.

During the year, the Bank monitors the development of requirements for regulatory capital on a monthly basis for internal purposes and prepares reports on regulatory capital and on the requirements for the Bank's regulatory capital, which are submitted to the National Bank of Slovakia, on a quarterly basis. The achieved results are also discussed at the Board of Directors and Supervisory Board meetings on a quarterly basis.

The Bank's regulatory capital is defined by Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012. The Bank's regulatory capital comprises the sum of its TIER 1 capital (regulatory and supplementary) and TIER 2 capital.

Segment Reporting

When preparing segment reporting, the Bank uses its internal information, which is presented to the Bank's management on a regular basis. The breakdown by individual segment categories recognised in the notes is based on the principle applied for the classification of the Bank's customers as follows:
- Retail customers;
- Corporate customers;
- Treasury;
- Not specified.

The "retail customers" segment includes the following customers: individuals. The segment also includes private banking customers who are defined separately according to the individual management of their funds. The Bank provides to retail customers standard bank products, particularly: consumer loans, mortgage loans, general-purpose loans, deposit products. The most common deposit products offered are current accounts, term deposits, saving accounts, credit and payment cards. The core products of this segment included housing loans and otp EXPRES and OTP refinance express consumer loans.

The segment of "corporate customers" includes domestic and foreign companies and state-owned entities. This segment comprises the SME subsegment (small and medium-sized enterprises with sales of up to EUR 17 million) and the large client and project financing subsegment (enterprises with sales of over EUR 17 million).

In terms of products, corporate customers were mostly provided with overdraft facilities, EU Agro loans for the MSE

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

segment and with long- and medium-term loans for housing cooperatives as well as loans for the apartment owners associations for the insulation of apartment buildings.

The segment of "Treasury" includes transactions performed on the Bank's own account or on the client's account and comprises the following types of transaction: trading with securities, trading with derivative instruments, trading on money markets, management of the Bank's liquidity, investment portfolio on the Bank's account.

Geographically, operating profit was primarily generated by the provision of banking services in Slovakia. Some assets and liabilities are placed outside Slovakia.

The breakdown of selected items of the financial statements by segments, the summary of the most significant exposures of total assets and liabilities to foreign entities and information on the amount of total revenues from foreign entities is included in Note 31.

Statement of Cash Flows

Cash and cash equivalents for the purposes of cash flow presentation include cash, amounts due from banks and balances with the National Bank of Slovakia, excluding the compulsory minimum reserve required by the NBS and amounts due to banks due up to three months as these form an integral part of the Bank's cash flow management.

3. Fair Value of the Bank's Financial Assets and Liabilities

The fair value of the Bank's financial assets and liabilities is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Where available, fair value estimates are made based on quoted market prices. In circumstances where the quoted market prices are not readily available, the fair value is estimated using discounted cash flow models or other valuation models as appropriate. Market inputs are used in valuation models to the maximum extent. Changes in underlying assumptions, including discount rates and estimated future cash flows or other factors, significantly impact the estimates. Therefore, the estimated fair market values may not be realised in the current sale of the financial instrument.

Based on the used input data for the fair value estimates, the calculation of fair value of the Bank's financial assets and liabilities can be classified into one of the three levels:

Level 1: quoted prices from active markets for identical assets or liabilities;

Level 2: inputs other than "level 1" quoted prices, which can be obtained for assets or liabilities either directly (eg prices) or indirectly (derived from interest rates etc.);

Level 3: input data for assets or liabilities, which cannot be derived from market data.

The following tables present an analysis of financial instruments that are measured after their initial recognition at fair value. Financial instruments are classified into three levels/categories based on the level of the fair value determination:

31 December 2016 (EUR '000)	**Level 1**	**Level 2**	**Level 3**	**TOTAL**
Assets				
Financial assets at fair value through profit or loss	-	6	-	**6**
Derivative financial instruments for trading	*-*	*6*	*-*	***6***
Available-for-sale financial assets	8 353	-	972	**9 325**
Available-for-sale securities – bonds issued by foreign banks	*8 353*	*-*	*-*	***8 353***
Available-for-sale securities – shares	*-*	*-*	*972*	***972***
Liabilities				
Liabilities from derivative transactions	-	1	-	**1**

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

31 December 2015 (EUR '000)	Level 1	Level 2	Level 3	TOTAL
Assets				
Financial assets at fair value through profit or loss	-	824	-	**824**
Derivative financial instruments for trading	*-*	*824*	*-*	***824***
Available-for-sale financial assets	8 890	-	2 896	**11 786**
Available-for-sale securities – bonds issued by foreign banks	*8 890*	*-*	*-*	***8 890***
*Available-for-sale securities – shares**	*-*	*-*	*2 896*	***2 896***
Liabilities				
Liabilities from derivative transactions	-	13	-	**13**

**The fair value cannot be derived from market data, it is determined in the amount of an expected selling price – see Note 7.*

The following tables present the fair value hierarchy for financial instruments measured in assets and liabilities at amortised cost (the values below represent amortised cost):

31 December 2016 (EUR '000)	Level 1	Level 2	Level 3	TOTAL
Assets				
Loans and receivables	-	-	1 146 135	**1 146 135**

Assets				
Loans and receivables	-	-	1 144 606	**1 144 606**
Held-to-maturity financial investments	73 643	-	-	**73 643**
Liabilities				
Amounts due to customers	-	-	1 233 534	**1 233 534**
Liabilities from issued securities	-	34 843	-	**34 843**
Subordinated debt	-	20 007	-	**20 007**

The fair value of term deposits with a fixed interest rate is estimated by discounting their future cash flows, while current interest rates offered by the Bank for customers' term deposits are used for discounting.

When estimating the fair value of its financial instruments, the Bank used the following methods and assumptions:

Cash, Amounts due from Banks, and Balances with the National Bank of Slovakia and Placements with Other Banks

The net book values of cash and balances with central banks are generally deemed to approximate their fair value.

The estimated fair value of amounts due from banks that mature in 365 days or less approximates their net book values. The fair value of other amounts due from banks is estimated based upon discounted cash flow analyses using interest rates currently offered for investments with similar terms (market rates adjusted to reflect credit risk).

Loans and Receivables

Generally, the fair value of variable yield loans that are regularly re-valued approximates their net book values with no significant changes in credit risks. The fair value of loans at fixed interest rates is estimated using discounted cash flow analyses, based upon interest rates currently offered for loans with similar terms to borrowers of similar credit risks. The fair value of non-performing loans to customers is decreased on a pro-rata basis using a percentage of the impairment.

Held-to-Maturity Financial Investments

The fair value of securities recorded in the held-to-maturity portfolio was determined based on quoted prices on active markets, if available, and using valuation techniques when applying market input factors. In government and banking bonds, whose issuers have rating comparable with the country rating, the fair value is calculated using the market yield curve without credit margin. For other types of securities the credit margin reflecting the issuer's credit risk is applied in addition to the market yield curve.

Amounts due to Banks and Deposits from the National Bank of Slovakia and Other Banks and Amounts due to Customers

The estimated fair value of amounts due to banks with maturity within 365 days approximates their net book values. The fair value of term deposits payable on demand represents the net book value of amounts payable on demand as at the statement of financial position date. The fair value of term deposits at variable interest rates approximates their net book values. The fair value of term deposits with a fixed interest rate is estimated by their discounted future cash flows using current interest rates offered by the Bank for customers' term deposits with various maturity periods – Level 3 of the fair value estimate.

Liabilities from Issued Debt Securities and Subordinated Debt

The fair value of issued debt securities and subordinated debt is determined using valuation techniques by discounting future cash flows by a rate derived from the market yield curve by level 2 of the fair value estimate. Fair value is determined separately for individual issues of securities considering the relevant credit margin.

The following table presents a comparison of the estimated fair value and carrying amount of the selected financial assets and liabilities where the difference between such values is material:

(EUR '000)	Fair Value 31 Dec 2016	Net Book Value 31 Dec 2016	Difference 31 Dec 2016
Assets			
Loans and receivables	1 166 494	1 146 135	20 359

Supplementary Data to the Financial Statements

4. Cash, Due from Banks and Balances with the National Bank of Slovakia

(EUR '000)	31 Dec 2016	31 Dec 2015
Cash on hand:		
In EUR	26 856	31 089
In foreign currency	2 478	4 326
	29 334	**35 415**
Due from banks and balances with NBS:		
Residual maturity within one year:		
In EUR	147 965	6 055
In foreign currency	2 364	3 551
	150 329	**9 606**
Total	**179 663**	**45 021**

Included in the 'Due from banks and balances with NBS' denominated in EUR is the compulsory minimum reserve with the NBS in the amount of EUR 7 272 thousand (31 December 2015: EUR 5 101 thousand), the withdrawal of which is restricted.

The average amount of the Bank's compulsory minimum reserves during the period bears an average threshold interest rate of the Eurosystem main refinancing operation. Excess monetary reserves bear no interest. As at 31 December 2016, compulsory minimum reserves bear interest at 0.00% (31 December 2015: 0.05%).

As at 31 December 2016, the Bank recognised term deposits with the NBS in the amount of EUR 139 997 thousand (31 December 2015: EUR 0).

5. Placements with Other Banks, Net of Provisions for Possible Placement Losses

(EUR '000)	31 Dec 2016	31 Dec 2015
Residual maturity within one year:		
In EUR	2	1
In foreign currency	-	**126 704**
Total	**2**	**126 705**

Interest on deposits with other banks, loans to other banks:

	31 Dec 2016 in %		31 Dec 2015 in %	
	From	Until	From	Until
Contractual maturity within one year:				
In EUR	-	-	-	-
In foreign currency	-	-	0.25	0.40

As at 31 December 2016, the Bank had no short-term deposits denominated in a foreign currency (31 December 2015: in GBP and HUF).

During 2016, the Bank entered into reverse REPO transactions with OTP Bank Nyrt. The Bank did not recognise an open reverse REPO transaction as at 31 December 2016 (31 December 2015: EUR 124 251 thousand). Income from these transactions is recognised in the statement of comprehensive income as "Interest income".

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

6. Financial Assets at Fair Value through Profit or Loss

(EUR '000)	31 Dec 2016	31 Dec 2015
Derivative financial instruments held for trading (Note 22)	6	824
Total financial instruments held for trading	**6**	**824**

As at 31 December 2016 and 31 December 2015, the held-for-trading securities portfolio included ordinary shares of businesses which are in the bankruptcy proceedings.

Derivative financial instruments held for trading do not comprise hedging derivatives; they are held to earn profit. They include forward currency swaps.

As at 31 December 2016, the Bank recognised a net gain/loss on financial assets at FVTPL from derivative transactions (Note 26) in the amount of EUR –1 308 thousand (31 December 2015: EUR -2 143 thousand).

7. Available-for-sale financial assets

(EUR '000)	31 Dec 2016	31 Dec 2015
Available-for-sale securities – bonds issued by foreign banks	8 353	8 890
Available-for-sale securities – shares of foreign entities*	972	2 896
Investments in corporate entities	6	526
Total available-for-sale financial instruments	**9 331**	**12 312**

**In connection with a transaction announced on 2 November 2015 by which VISA Inc. acquired 100% of the shares of VISA Europe Ltd. in 2016, as at 31 December 2015 the Bank remeasured to fair value the shares of VISA Europe Ltd. held in the available-for-sale portfolio through the statement of comprehensive income. The revaluation in the amount of EUR 2 896 thousand is based on the portion of the selling price of the shares which was to be paid to the Bank in cash during 2016. The fair value of other components of the selling price (VISA Inc. shares and additional income upon meeting the set conditions) was not estimated, as such components cannot be reliably measured based on the information available.*

The announced transaction – the purchase of the shares of Visa Europe Ltd. by Visa Inc. was carried out on 21 June 2016. As a result, the Bank derecognised the shares of Visa Europe Ltd. and recognised the received consideration – cash in the amount of EUR 3 087 thousand, the shares of Visa Inc. in the amount of EUR 897 thousand and a receivable from a deferred payment due in 3 years amounting to EUR 252 thousand.

The structure as per interest rates and residual maturities (except for investments in corporations) is provided below:

(EUR '000)	31 Dec 2016	31 Dec 2015
No maturity, variable interest *	8 353	-
No maturity, fixed interest *	-	8 890
Within one year, interest-free	-	2 896
No maturity, interest-free	972	-
Total	**9 325**	**11 786**

All bonds are denominated in EUR bearing interest at 2.687% as at 31 December 2016 (31 December 2015 at 5.875%).

As at 31 December 2016, the Bank recognised no pledged securities as part of available-for-sale financial assets (31 December 2015: EUR 0).

**In 3Q 2013, the Bank purchased for the available-for-sale financial assets portfolio subordinated bonds issued by the parent company, OTP Nyrt. The proceeds from such bonds are recognised in the statement of comprehensive income as "Interest income".*

Under the issue terms and conditions, the subordinated bond has no fixed maturity as regards the face value. The Bank's management expected that the bond was very likely to be repaid at face value in November 2016. In line with the issue terms and conditions, the issuer decided not to repay the bond on the referred date. Interest on the bond changed from fixed to variable. The issuer will again have an option to repay the bond in November 2017. Interest income arising from this bond is recognised using the effective interest rate method totalling EUR 1 348 thousand in 2016 (2015: EUR 1 381 thousand).

As at 31 December 2016, the portfolio of available-for-sale debt securities was remeasured to fair value. A loss on revaluation for 2016 amounts to EUR 1 058 thousand (2015: a profit of EUR 2 576 thousand), net of deferred income tax (Note 30). The revaluation of the portfolio is recognised through equity as *"Revaluation reserve – available-for-sale financial assets"*.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

An analysis of investments in corporate entities as at 31 December 2016:

Company Name	Business Activity	Share as at 31 Dec 2016	Cost	Provision	Net
S.W.I.F.T (Belgium)	International clearing	0.005%	6	-	6
Total (EUR '000)			**6**	**-**	**6**

In 4Q 2016, the Bank sold its ownership interests in OTP Buildings, s.r.o. and RVS, a.s. The proceeds from these transactions are recognised in the income statement as *"Gains/(losses) on financial assets, net"*.

An analysis of investments in corporate entities as at 31 December 2015 (unless stated otherwise, the companies are registered in the Slovak Republic):

Company Name	Business Activity	Share as at 31 Dec 2015	Cost	Provision	Net
OTP Buildings, s.r.o.	Real estate	19.00%	6	6	-
S.W.I.F.T (Belgium)	International clearing	0.005%	6	-	6
RVS, a.s.	Wellness	12.65%	867	347	520
Total (EUR '000)			**879**	**353**	**526**

An analysis of movements in the provision for available-for-sale financial assets related to an equity share in corporate entities is as follows:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	353	353
Decrease in provisions due to sale of equity shares	(353)	-
Balance at the end of reporting period	**-**	**353**

The Bank is not an unlimited guarantee partner in any reporting entities.

8. Loans and Receivables, Net of Provisions for Possible Losses

The Summary of Provisions for Possible Loan Losses

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	53 416	55 770
Provisions for impairment losses on loans, net	26 179	14 203
Loan write-offs and assignments (Note 24)	(262)	(16 559)
Foreign exchange differences	-	2
Balance at the end of reporting period	**79 333**	**53 416**

In 2016, the amount of provisions increased by EUR 25.9 million, of which EUR 15.7 million was for retail loans and EUR 10.2 million was for non-retail loans.
As regards retail loans, the increase in provisions was mainly caused by an increase in the volume of consumer loans to households, a change in input parameters and an increase in defaulted loans. By creating higher additional provisions, the Bank ensured sufficient coverage of identified and/or future losses.
As regards non-retail loans, the Bank introduced a stricter assessment of its loan portfolio quality, while taking into consideration the plans and guidelines of its parent company concerning the setting up of the risk profile for the assets of the Banking Group as a whole at an acceptable level.

Interest on loans and receivables:

	31 Dec 2016 in %		31 Dec 2015 in %	
	From	Until	From	Until
Contractual maturity within one year:				
In EUR	1.40	20.50	0.70	19.90
In foreign currency	0.00	20.00	0.00	20.00
Contractual maturity over one year:				
In EUR	0.04	30.90	0.19	30.90
In foreign currency	2.29	2.29	2.88	2.88

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Other Information on Loans and Receivables

In previous years, the Bank provided a loan for housing construction. The total loan amount recognised as at 31 December 2016 amounted to EUR 5 724 thousand (31 December 2015: EUR 5 724 thousand). The repayment of the loan depends on the results of litigations held against a number of entities. Based on the legal counsels' opinion and the current status of the receivable recovery, the Bank's management has estimated the amount of the possible incurred loan loss as at the reporting date. Given the fact that the final outcome of all litigations and other actions related to the recovery of the loan as well as their timing is uncertain, the final outcome of such uncertainties may differ from the estimated volume of the impairment provisions recognised as at 31 December 2016, and this difference may be significant in relation to the total loan amount.

Loans with non-accrual status as at 31 December 2016 amounted to EUR 10 984 thousand, net of provisions for potential loan losses (31 December 2015: EUR 10 613 thousand). The Bank has stopped charging interest on these loans as bankruptcy was declared on the debtor or due to the Bank's withdrawal from the loan contract following the client's failure to meet contractual conditions.

For loans in bankruptcy and restructuring proceedings (under the Act on Bankruptcy and Restructuring) for 2016, the Bank records interest income that was not recognised in the statement of comprehensive income (Note 2) in the amount of EUR 98 thousand (2015: EUR 63 thousand).

Interest income of the Bank for 2016 from loans impaired as at 31 December 2016 amounted to EUR 4 654 thousand and are recognised in the income statement in *"Interest income"* (31 December 2015: EUR 2 834 thousand). The receivables from interest income are combined with related loan balances when determining impairment provision.

As at 31 December 2016, loans denominated in a foreign currency accounted for approximately 0.03% of the loan portfolio before provisions for potential loan losses (31 December 2015: 0.03%).

9. Held-to-Maturity Financial Investments

As at 31 December 2016 and 31 December 2015, the Bank recognised the following held-to-maturity investments:

(EUR '000)	31 Dec 2016	31 Dec 2015
Government bonds	73 482	73 643
Foreign government bonds	10 625	-
Total held-to-maturity securities	**84 107**	**73 643**

All held-to-maturity securities are denominated in euros.

In 2016, the Bank purchased government bonds of other EU Member States with a face value of EUR 10 000 thousand for its held-to-maturity securities portfolio.

Interest on held-to-maturity investments:

	31 Dec 2016 in %		31 Dec 2015 in %	
	From	Until	From	Until
Contractual maturity within one year:				
In EUR	-	-	-	-
Contractual maturity over one year:				
In EUR	2.95	3.00	3.00	3.00

In accordance with the securities pledge contracts, the pledger (the Bank) cannot dispose of pledged securities without approval by the pledgee (client).

As at 31 December 2016 and 31 December 2015, the Bank did not record any other restrictions on the disposal of securities in its portfolio within held-to-maturity investments.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

10. Investments in Subsidiaries

As at 31 December 2016 and 31 December 2015, the Bank recognised the following investments in subsidiaries and associates:

(EUR '000)	31 Dec 2016	31 Dec 2015
Subsidiaries	-	1 202
Total – gross value	**-**	**1 202**
Provision for investments in subsidiaries	-	(1 109)
Total – net value	**-**	**93**

An analysis of investments in subsidiaries, as at 31 December 2015 (all companies incorporated in Slovakia), is as follows:

Company	Company Seat	Business Activity	Ownership Interest/ Voting Power Held
Faktoring SK, a.s. v likvidácii	Tallerova 10, 811 02 Bratislava	Factoring	100.00%

In 2010, as part of the strategic decisions made at the OTP Group level, a decision was adopted to terminate OTP Faktoring Slovensko, a.s.'s activities. On 1 April 2011, OTP Faktoring Slovensko, a.s. entered into liquidation and also its business name was changed from the original "OTP Faktoring Slovensko, a.s." to "Faktoring SK, a.s. v likvidácii". The company's liquidation was completed on 15 December 2015. In 2015, the Bank created additional provisions in the amount of EUR 58 thousand to cover an expected loss from the liquidation. The company's General Meeting was held in 2Q 2016 at which the liquidation conclusions were confirmed and a decision on the distribution of the liquidation balance was approved. In connection with the settlement of the liquidation balance of EUR 93 thousand, the Bank derecognised the investment in the subsidiary and reversed the created provisions.

A summary of changes in provisions for investments in subsidiaries:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of the reporting period	1 109	1 051
Decrease in provisions due to liquidation of a subsidiary	(1 109)	58
Balance at the end of the reporting period	**-**	**1 109**

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

11. Non-Current Tangible and Intangible Assets

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

A summary of insurance of non-current tangible and intangible assets as at 31 December 2016:

(EUR '000)	Anticipated Annual Premium	Actual Insurance Costs
MTPL insurance	4	4
Motor hull insurance	21	21
Insurance of assets	37	37
Total	**62**	**62**

Costs of insurance coverage are recognised in the statement of comprehensive income line *"General administrative expenses"*.

As at 31 December 2016, the Bank's non-current tangible and intangible assets were insured up to 100% of the total amount of assets (31 December 2015: 100%).

As at 31 December 2016, the Bank does not record as part of its non-current tangible and intangible assets the following:
- Assets encumbered by a pledge;
- Assets with a limited right of disposal;
- Acquired assets for which the ownership title was not recorded in the Land Register as at the reporting date, but which is used by the Bank; and
- Assets acquired in privatisation.

12. Other Assets

(EUR '000)	31 Dec 2016	31 Dec 2015
Loss receivables (non-credit) from various debtors	2 639	2 636
Loss receivables from securities	6 104	6 104
Operating advances made	180	193
Inventories	124	147
Deferred expenses	751	735
Accrued income	88	10
Receivables from various debtors	389	82
Receivables from shortages and damage	149	154
Other receivables from clients	1 160	411
Other receivables	479	706
Other assets before provisions	**12 063**	**11 178**
Provisions for possible losses from other assets	(8 920)	(8 893)
Total other assets	**3 143**	**2 285**

Provisions for possible losses from other assets mainly relate to the loss receivables from various debtors and loss receivables from securities.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

An analysis of movements in provisions for possible losses from other assets is as follows:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	8 893	8 896
Provisions for impairment losses on other assets, net (Note 29)	26	(1)
Other assets written-off and assigned (Note 29)	-	(2)
FX difference	1	-
Balance at the end of reporting period	**8 920**	**8 893**

As at 31 December 2016 and 31 December 2015, the Bank does not recognise as part of other assets any amounts to which a pledge is attached or for which it has a limited right of disposal.

The Bank does not recognise any subordinated financial assets as part of other assets.

13. Due to Banks and Deposits from the National Bank of Slovakia and Other Banks

(EUR '000)	31 Dec 2016	31 Dec 2015
Residual maturity within one year:		
In EUR	929	14 194
In foreign currency	215	68
Residual maturity of over one year:		
In EUR	2 000	-
Total	**3 144**	**14 262**

Amounts due to banks by type of product:

(EUR '000)	31 Dec 2016	31 Dec 2015
Deposits	206	2 906

Mortgage bonds Issue XXX	EUR	140	100 000.00	14 000	14 000	-	3M EURIBOR + 0.21% p.a.	Quarterly	16 Dec 2016	15 Dec 2017
Total				-	**20 010**	**31 047**				

As at 31 December 2016, no mortgage bonds were listed on the Bratislava Stock Exchange (31 December 2015: mortgage bonds, Issue XXV).

According to the Banking Act, the mortgage bonds issued must cover at least 90% of the outstanding amount of mortgage loans provided by the Bank. This threshold was reduced to 70% for the Bank for the period from 1 March 2015 until – 28 February 2017 under the decision of the NBS. As at 31 December 2016, the Bank's coverage was 74.79% (31 December 2015: 73.90%).

16. Other Liabilities

(EUR '000)	31 Dec 2016	31 Dec 2015
Various creditors	1 927	1 854
Tax liabilities (except for income tax liabilities)	627	1 023
Provisions for unbilled and other liabilities	770	585
Social fund	89	67
Settlement with employees	1 431	1 634
Settlement with social institutions	360	426
Negative fair value of financial derivatives (Note 22)	1	13
Liabilities from payment transactions	14 201	6 340
Other liabilities	3 139	2 793
Total	**22 545**	**14 735**

Summary of changes in the social fund:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	67	98
Additions during the reporting period	189	178
Drawings during the reporting period	(167)	(209)
Balance at the end of reporting period	**89**	**67**

17. Subordinated Debt

Type of Loan	Curr.	Type of Loan by Maturity	Start of Loan Drawdown	Contractual Maturity	Interest Rate	31 Dec 2016	31 Dec 2015
Subordinated debt:							
– OTP Financing Netherlands B.V.	EUR	Long-term	Sep 2014	Sep 2021	3M EURIBOR + 3.41% p. a.	18 008	18 007
– OTP Financing Malta Company Ltd.	EUR	Long-term	Dec 2015	Dec 2022	3M EURIBOR + 2.37% p. a.	2 000	2 000
Total (EUR '000)						**20 008**	**20 007**

In the first half of 2015, the Bank repaid subordinated debts with a total face value of EUR 29 million on their contractual maturity date.

In December 2015, the Bank received a long-term subordinated debt from OTP Financing Malta Company Ltd. with a total face value of EUR 2 million.

Subordinated debt totalling EUR 20 million represents Tier 2 capital for the Bank in the amount of EUR 19 million pursuant to Regulation of the European Parliament and of the Council No. 575/2013 (Note 33).

OTP Financing Netherlands B.V. is a financial company, a member of the OTP Group, with its seat at Westblaak 89, 3012 KG Rotterdam, Netherlands. OTP Financing Malta Company Ltd. is a member of the OTP Group with seat at Level 2, Regional Business Centre, University Heights, MSD 1751, Msida, Malta.

The scope of business of the above companies primarily includes:

- Raising and provision of financial borrowings and loans, accession to a debt as a co-debtor;
- Provision of financial guarantees, provision of securities to third parties;
- Advisory and consulting activities;
- Investments of financial funds; and
- Lease, development, management, acquisition of movable and immovable assets.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

18. Equity

The Bank's equity comprises:

(EUR '000)	31 Dec 2016	31 Dec 2015
Share capital	88 539	88 539
Reserve funds	6 179	5 695
Retained earnings	16 508	13 849
Revaluation of available-for-sale financial assets	(533)	2 784
Gain/(loss) for the reporting period	(3 021)	2 954
Total equity	**107 672**	**113 821**

Share Capital

The Bank's share capital as at 31 December 2016 and 31 December 2015 comprises:

Face Amount	ISIN	Number of Shares	Face Value of Shares
Repaid and registered in the Commercial Register			
EUR 3.98 per share	SK1110001452	3 000 000	11 940
EUR 3.98 per share	SK1110004613	8 503 458	33 843
EUR 39 832.70 per share	SK1110003003	570	22 705
EUR 1.00 per share	SK1110016559	10 019 496	10 020
EUR 1.00 per share	SK1110017532	10 031 209	10 031
Total share capital			**88 539**

The type, form, nature and tradability of shares as at 31 December 2016 and 31 December 2015 was as follows:

Face Amount	ISIN	Type	Form	Nature	Tradability
EUR 3.98 per share	SK1110001452	ordinary	registered	uncertified	publicly tradable
EUR 3.98 per share	SK1110004613	ordinary	registered	uncertified	publicly tradable
EUR 39 832.70 per share	SK1110003003	ordinary	registered	uncertified	publicly non-tradable
EUR 1.00 per share	SK1110016559	ordinary	registered	uncertified	publicly tradable
EUR 1.00 per share	SK1110017532	ordinary	registered	uncertified	publicly tradable

No special rights are attached to the shares. Voting rights per share are equivalent to the face value per share.

As at 31 December 2016, no shares of OTP Banka Slovensko, a.s. are held by the Bank and its subsidiaries.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Reserve Funds

As at 31 December 2016, reserve funds in the amount of EUR 6 179 thousand (31 December 2015: EUR 5 695 thousand) comprise the legal reserve fund in the amount of EUR 5 034 thousand (31 December 2015: EUR 4 739 thousand) and other capital reserves in the amount of EUR 1 145 thousand (31 December 2015: EUR 956 thousand).

The legal reserve fund is intended to cover potential future losses; its distribution to shareholders is restricted in accordance with the Slovak Commercial Code.

Retained Earnings

As at 31 December 2016, the Bank recognises in equity retained earnings in the amount of EUR 16 508 thousand (31 December 2015: EUR 13 849 thousand).

In line with the General Meeting's decision (Note 41), in 2Q 2016 the Bank transferred the amount of EUR 295 thousand from the 2015 profit to the legal reserve fund and the amount of EUR 2 659 thousand to retained earnings.

Revaluation of Available-for-sale Financial Assets

Available-for-sale financial assets are remeasured to fair value. Gains and losses on revaluation are recognised in equity as *"Revaluation of available-for-sale financial assets"*.

In connection with a transaction announced on 2 November 2015 by which VISA Inc. acquired 100% of the shares of VISA Europe Ltd. in 2016, as at 31 December 2015 the Bank remeasured to fair value the shares of VISA Europe Ltd. held in the available-for-sale portfolio via the statement of comprehensive income. The revaluation in the amount of EUR 2 896 thousand is based on the portion of the selling price of the shares which was to be paid to the Bank in cash during 2016. The fair value of other components of the selling price (VISA Inc. shares and additional income upon meeting the set conditions) was not estimated, as such components could not be reliably measured based on the information available.

The announced transaction – purchase of the shares of Visa Europe Ltd. by Visa Inc. was performed on 21 June 2016. As a result, the Bank derecognised the shares of Visa Europe Ltd. and recognised the received consideration – cash of EUR 3 087 thousand, shares of Visa Inc. in the amount of EUR 897 thousand and a deferred cash receivable payable in 3 years in the amount of EUR 252 thousand.

As at 31 December 2016, the Bank recognised in equity a loss on the revaluation of available-for-sale financial assets, net of income tax, of EUR 533 thousand (31 December 2015: profit of EUR 2 784 thousand).

19. Income Taxes

(EUR '000)	31 Dec 2016	31 Dec 2015
Current tax expense	2 420	1 819
Deferred tax (income)/expense	(2 985)	(988)
Total	**(565)**	**831**

As at 31 December 2016, the Bank recognised income tax revenue in the amount of EUR 565 thousand in the statement of comprehensive income (31 December 2015: income tax expense of EUR 831 thousand). The Bank recognised a decrease in the deferred tax liability for 2016 in the amount of EUR 927 thousand in items recognised through equity (2015: decrease of EUR 726 thousand).

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

The Bank's tax on pre-tax profit differs from the theoretical tax which would arise if the income tax rate was applied as follows:

(EUR '000)	31 Dec 2016	31 Dec 2015
Pre-tax profit/(loss)	**(3 586)**	**3 785**
Theoretical tax at 22% (2015: 22%)	(789)	833
Non-taxable income	(184)	(37)
Non-deductible expenses	456	918
Provisions for assets and provisions for liabilities, net	(2)	(455)
Adjustment of provisions for uncertain utilisation of deferred tax assets	(410)	(432)
Adjustment of the current tax for the previous year	4	4
Effect of a change in the corporate income tax rate	360	-
Income tax expense/(revenue) for the current reporting period	**(565)**	**831**
Effective tax for the reporting period	**15.76%**	21.96%

For the reporting period, the Bank recorded a positive tax base of EUR 11 439 thousand (31 December 2015: a positive tax base of EUR 8 710 thousand).

20. Current and Deferred Income Tax

(EUR '000)	31 Dec 2016	31 Dec 2015
Current tax liability	596	950
Total current tax liability	**596**	**950**

Deferred income taxes are recognised using the liability method on a balance sheet basis. The application of this method reports temporary differences, ie the differences between the tax base of assets or liabilities and their carrying amount in the statement of financial position. The effective 21% tax rate valid for the following reporting period was applied (2015: 22%):

(EUR '000)	31 Dec 2016	31 Dec 2015
Deferred tax liability		
Difference between net book value and net tax value of tangible assets	(647)	(660)
Revaluation reserves on available-for-sale securities (recognised through equity)	(2)	(785)
Total deferred tax liability	**(649)**	**(1 445)**
Deferred tax asset		
Loans (provisions for loan impairment losses)	7 807	5 069
Provisions for liabilities	302	372
Tax losses that can be carried forward	96	202
Revaluation reserves on available-for-sale securities (recognised through equity)	144	-
Total deferred tax asset	**8 349**	**5 643**
Adjustment for uncertain utilisation of deferred tax asset	**(2 767)**	**(3 177)**
Net deferred tax asset/(liability)	**4 933**	**1 021**

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

(EUR '000)	31 Dec 2016	31 Dec 2015
Net deferred tax asset/(liability) – opening balance at 1 Jan	1 021	759
(Debited)/credited to profit/loss for the reporting period	2 985	988
(Debited)/credited to equity	927	(726)
Net deferred tax asset/(liability) – closing balance	**4 933**	**1 021**

When recognising the deferred tax asset, the Bank followed the prudence principle. Based on the approved budget and effective tax legislation the Bank expects to recognise positive tax bases in the following years, against which tax losses from previous years can be utilised (carried forward).

The Bank did not recognise a deferred tax asset of EUR 2 767 thousand (31 December 2015: EUR 3 177 thousand), associated mainly with temporary differences resulting from provisions for loans and a portion of tax losses carried-forward, owing to its uncertain timing and utilisation in future reporting periods.

21. Provisions for Liabilities, Contingent Liabilities and Other Off-Balance Sheet Items

In the ordinary course of business, the Bank becomes party to various financial transactions that are not reflected in the statement of financial position but recognised in the off-balance sheet. These include liabilities resulting from provided guarantees, unused loan commitments and issued letters of credit. The following represent notional amounts of these off-balance sheet financial liabilities, unless stated otherwise.

(EUR '000)	31 Dec 2016	31 Dec 2015
Unused loan commitments	27 170	26 679
Other guarantees provided to banks	218	794
Other guarantees provided to clients	15 620	17 264
Unused overdrafts and authorised overdraft facilities	23 940	23 268
Total	**66 948**	**68 005**

Loan commitments represent the unused part of permissions to provide financial funds as loans, guarantees, or letter of credits. The Bank faces potential losses related to credit risks resulting from loan commitments in the amount of unused loan commitments. The estimated amount of exposure is, however, lower than the total unused loan commitments, since the majority of such commitments are subject to loan covenants that clients are required to comply with.

To cover estimated losses on unused loans, guarantees, and letters of credit, the Bank creates provisions in the case when a payable - as a result of past events - has to be settled and it is likely that such settlement of a payable will require cash outflow, and the amount payable can be reliably estimated. The calculation of the provision for off-balance sheet liabilities is analogous to the case of credit exposure. Issued guarantees, irrevocable letters of credit, and unused loan commitments are subject to detailed monitoring of credit risks and loan principles, as in the case of loans extended.

Within its ordinary activities the Bank is party to court and other disputes and litigation. Each dispute is subject to monitoring and regular re-assessment as part of the Bank's standard procedures. If it is probable that the Bank will be required to settle the claim and a reliable estimate of the amount can be made, provisions are recorded.

The management of the Bank believes that obligations that could arise from these disputes and litigation would not significantly affect the current and future financial situation of the Bank. Considering the advice of lawyers and the status of individual cases, the Bank created provisions for these risks in the amount of EUR 3 550 thousand as at 31 December 2016 (31 December 2015: EUR 2 757 thousand).

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

The Bank recognised the following provisions:

(EUR '000)	31 Dec 2016	31 Dec 2015
Provisions for:		
Unused loan commitments	119	78
Guarantees	25	21
Litigations and other disputes	3 550	2 757
Retirement payments	120	107
Total	**3 814**	**2 963**

The creation and release of provisions for off-balance sheet liabilities is recognised in the statement of comprehensive income line *"Provisions for impairment losses on loans and off-balance sheet, net"*. The creation and release of a provision for retirement payments is recognised in the income statement's line *"General administrative expenses"*. The creation and release of provisions for litigations and other disputes is recognised in the statement of comprehensive income line *"Other operating revenues/(expenses), net"*.

An analysis of changes in provisions for guarantees and unused loan commitments:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	99	168
Creation of provision	403	401
Release of provision	(358)	(470)
Balance at the end of reporting period	**144**	**99**

An analysis of changes in the provision for litigations and other disputes:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	2 757	3 206
Creation of provision	813	231
Use of provision	(13)	(606)
Release of provision	(7)	(74)
Balance at the end of reporting period	**3 550**	**2 757**

In 2015, a provision was used to cover expenses resulting from operating risks, to which the Bank is exposed during its operations.

An analysis of changes in the provision for retirement payments:

(EUR '000)	31 Dec 2016	31 Dec 2015
Balance at the beginning of reporting period	107	105
Creation of provision	31	32
Release of provision	(18)	(30)
Balance at the end of reporting period	**120**	**107**

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

22. Derivative Financial Instruments

The Bank uses derivative financial instruments for trading purposes. The tables below represent the financial derivative instruments at face and fair values as at 31 December 2016 and 31 December 2015:

(EUR '000)	Face Value of Assets		Face Value of Liabilities	
	31 Dec 2016	31 Dec 2015	31 Dec 2016	31 Dec 2015
Currency instruments				
Currency swaps	16 025	142 401	6 042	4 760
Total	**16 025**	**142 401**	**6 042**	**4 760**

(EUR '000)	Positive Fair Value		Negative Fair Value	
	31 Dec 2016	31 Dec 2015	31 Dec 2016	31 Dec 2015
Currency instruments				
Currency swaps	6	824	1	13
Total	**6**	**824**	**1**	**13**

Positive fair value is included in *"Financial assets at fair value through profit or loss"* and negative fair value is included in *"Other liabilities"*. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the statement of comprehensive income line *"Gains/(losses) on financial transactions, net"*.

23. Net Interest Income

(EUR '000)	Year Ended 31 Dec 2016	Year Ended 31 Dec 2015
Interest income:		
Loans and other receivables	50 964	54 341
Placements with other banks	1 280	3 433
Financial assets for sale	1 348	1 382
Held-to-maturity financial investments	2 073	1 960
Total interest income	55 665	61 116
Interest expense:		
Due to banks and deposits from the National Bank of Slovakia and other banks and other payables	(4)	(17)
Amounts due to customers	(7 020)	(12 440)

Foreign Assets and Liabilities

The Bank provides banking services primarily in the territory of the Slovak Republic. Some assets and liabilities were placed outside of the Slovak Republic.

The structure of assets and liabilities related to counterparties outside the Slovak Republic:

(EUR '000)	31 Dec 2016	31 Dec 2015
Assets	40 251	162 898
Of which: Hungary	*9 404*	*136 625*
Of which: Other EU countries	*28 364*	*21 657*
Liabilities	223 752	141 263
Of which: Hungary	*166 634*	*69 398*
Of which: Other EU countries	*46 178*	*52 363*

As at 31 December 2016 and 31 December 2015, the Bank's non-current tangible and intangible assets were localised only in the territory of the Slovak Republic.

Revenues from Foreign Entities

(EUR '000)	Year Ended 31 Dec 2016	Year Ended 31 Dec 2016
Interest income on:		
Term deposits provided to OTP Bank Nyrt (Hungary)	198	419
Subordinated bonds issued by OTP Bank Nyrt (Hungary)	1 348	1 381
Reverse REPO transactions with OTP Bank Nyrt (Hungary)	1 118	2 965
Foreign government bonds (Bulgaria)	148	-
Gain on sale of Visa Europe Ltd. shares (Notes 7 and 27)	4 237	2 896
of which		
remeasurement via statement of comprehensive income in 2015	-	*2 896*
reclassification of remeasurement to 2016 profit/loss	*2 896*	-
Recognition of other components of received consideration	*1 341*	-

The amount of income from other foreign entities is not significant for the Bank.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

32. Related Party Transactions

Under "IAS 24 – Related Party Disclosures" (IAS 24), a related party is defined as:

a) A person or a close family member of that person if that person:
   1) *has control or joint control over the reporting entity,* whereas control means authority to control financial and operating policy of the reporting entity in order to gain benefits from its activities and joint control means contractually agreed participation in control of operating activities;
   2) *has significant influence over the reporting entity*, whereas significant influence means authority to participate in decisions on financial and operating policies of the reporting entity, but not control over such policies; significant influence can be gained by holding shares, through articles of association or an agreement; or
   3) *is a member of the key management personnel of the reporting entity or of a parent of the reporting entity,* whereas the key management personnel include individuals who have authority and responsibility for planning, governance and control of the reporting entity's activities, directly or indirectly, including each director (whether executive or other) of this reporting entity;

b) The entity and the reporting entity are members of the same group;

c) An associate or joint venture of the reporting entity (or an associate or joint venture of a member of the group of which the reporting entity is a member);

d) The entity, if this entity and the reporting entity are joint ventures of the same third party;

e) The entity, if this entity is a joint venture of the third party and the reporting entity is an associate of the third party and/or if the entity is an associate of the third party and the reporting entity is a joint venture of the third party;

f) The entity is controlled or jointly controlled by a person identified in a);

g) A person identified in a1) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

In ordinary business, the Bank enters into transactions with related parties made on an arm's length basis.

The following tables present an overview of assets and liabilities, and expenses and revenues in relation to the Bank's related parties.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

**see "Key Management Personnel Compensation"*

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

In 2016, the Bank performed the following transactions within the OTP Group:

- Spot and forward transactions with the parent company, OTP Bank Nyrt. – provided and received term deposits, currency spots and currency swaps;

- Provided on a recurring basis short-term loans to the parent company, OTP Bank Nyrt., secured by securities within reverse REPO transactions;

- Sold Mortgage Bonds, Issues XXVIII, XXIX and XXX to the parent company, OTP Bank Nyrt., and

- Sold short-term and long-term bonds to the parent company, OTP Bank Nyrt.

All of the aforementioned transactions were made on an arm's length basis.

In 2015, the Bank performed the following transactions within the OTP Group:

- Spot and forward transactions with the parent company, OTP Bank Nyrt. – provided and received term deposits, currency spots and currency swaps;

- Short-term loans provided on a recurring basis to the parent company, OTP Bank Nyrt., secured by securities under reverse REPO transactions;

- Repaid subordinated debts from OTP Financing Netherlands B.V. on their contractual maturity dates with a total face value of EUR 29 million;

- Received a long-term subordinated loan from OTP Financing Malta Company Ltd.; and

- Sold Mortgage Bonds Issues XXVI and XXVII to the parent company, OTP Bank Nyrt.

All of the aforementioned transactions were made on an arm's length basis.

Key Management Personnel Compensation

Compensation includes all short-term employee benefits, including all forms of countervalues paid, payable or provided by or on behalf of the reporting entity in exchange for services provided to the reporting entity. In 2016, compensation in the amount of EUR 696 thousand (2015: EUR 662 thousand) was paid to the members of the Board of Directors and the Supervisory Board; they are short-term employee benefits.

The remuneration policy for members of the Board of Directors is compliant with the CRD III Directive.

As at 31 December 2016, the Bank recognised loan receivables from the members of the Board of Directors and Supervisory Board in the amount of EUR 217 thousand (31 December 2015: EUR 228 thousand)

In 2016, the received loan instalments totalled EUR 12 thousand (2015: EUR 57 thousand). Loans provided as at 31 December 2016 bore interest in the range of 1.79% to 4.00% (31 December 2015: in the range of 2.29% to 4.55%).

In 2016 and 2015, in respect of the members of the Board of Directors and Supervisory Board:

- The Bank did not waive or write off any loan or other receivables.
- The Bank does not record any other loans, advances, guarantees or other collateral.
- The Bank does not record any significant transactions.

Interest rates and other conditions of related party transactions do not differ from the Bank's standard interest rates and contractual terms and conditions.

33. Regulatory Capital

As of 1 January 2014, Regulation (EU) No. 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms entered into effect stipulating among others the method for the calculation of the Bank's regulatory capital as well as the calculation of requirements for the Bank's regulatory capital.

Pursuant to the aforementioned Regulation (EU) No. 575/2013 of the European Parliament and of the Council, the Bank's regulatory capital comprises Tier 1 Capital and Tier 2 Capital.
Tier 1 Capital consists of:
- Tier 1 own capital: (share capital, the legal reserve fund, and retained earnings from previous years. Items decreasing the amount of original own funds comprise the net book value of intangible assets).
- Tier 1 supplementary capital – not recorded by the Bank at the end of the period under review.

Tier 2 capital comprises a subordinated debt (Note 17).

Pursuant to Regulation (EU) No. 575/2013 of the European Parliament and of the Council the banks are required to meet the following requirements for regulatory capital:
a) Share of Tier 1 own capital in the amount of 4.5%;
b) Share of Tier 1 capital in the amount of 6%; and
c) Total share of capital in the amount of 8%,
Increased by the amounts of the relevant capital cushions.

The National Bank of Slovakia stipulated by Act No. 483/2001 as amended and supplemented, a cushion to maintain capital in the form of Tier 1 own capital in the amount of 2.5% of the total risk exposure as of 1 October 2014 and determined the level of countercyclical capital cushion at 0%.

In the period under review, the ratio of the Bank's total own funds exceeded the minimum level required by the EU and Slovak legislation. The Bank achieved the following shares: the share of Tier 1 own capital at 10.85%, the share of Tier 1 capital at 10.85% and the total share of capital at 12.92%.

The structure of the Bank's regulatory capital is as follows:

(EUR '000)	31 Dec 2016	31 Dec 2015
Tier 1 capital	99 897	100 339
Tier 1 own capital	99 897	100 339
Capital instruments allowable as Tier 1 own capital	88 539	88 539
Repaid capital instruments	*88 539*	*88 539*
Retained earnings	13 487	13 849
Retained earnings from previous years	*16 508*	*13 849*
Allowable gain or (-) loss	*(3 021)*	-
Other provisions	5 034	4 739
(-) Intangible assets	(6 479)	(6 788)
(-) Other items decreasing the amount of Tier 1 own capital	(684)	-
Tier 1 supplementary capital	-	-
Tier 2 capital	18 974	20 000
Repaid capital instruments and subordinated debt	*18 974*	*20 000*
Positive revaluation reserves	-	-
(-) Other items decreasing the amount of Tier 2 capital	-	-
Regulatory capital	**118 871**	**120 339**
Proportion of own capital (CET1) to risk-weighted assets	10.85%	11.20%
Proportion of Tier 1 capital to risk-weighted assets	10.85%	11.20%
Total proportion of capital to risk-weighted assets	**12.92%**	**13.44%**

34. Supplementary Data to Statements of Cash Flows

(EUR '000)	31 Dec 2016	31 Dec 2015
Cash, due from banks and balances with NBS except for mandatory minimum reserve	172 391	39 920
Deposits with other banks, falling due within three months	2	126 705
Due to banks, falling due within three months	(1 144)	(14 262)
Total cash and cash equivalents	**171 249**	**152 363**

Mandatory minimum reserve in the amount of EUR 7 272 thousand (31 December 2015: EUR 5 101 thousand) is excluded from cash and cash equivalents as its withdrawal is restricted (see Note 4).

Significant non-cash movements excluded from cash flows are as follows:

(EUR '000)	31 Dec 2016	31 Dec 2015
Write-off and assignments of loans (Note 8)	(262)	(16 559)

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

35. Financial Instruments and Risk Management

A financial instrument means any arrangement that entitles the entity to obtain cash or other financial assets from a counterparty (financial asset), or which binds the entity to pay cash or to provide other financial assets to a counterparty (financial liability).
Financial instruments are recorded by the Bank in the trading or banking book. The trading book includes those positions in financial instruments that are held by the Bank for trading purposes – short-term sale, and to achieve income from actual or expected differences between purchase and selling prices or from other changes in prices or interest rates.

The Bank's exposure to risks results from the use of financial instruments. The most significant risks include:
- Credit risk
- Market risk
  - Currency risk
  - Interest rate risk
  - Other price risk
- Liquidity risk
- Operational risk

Risk Management Framework
The Risk Division is responsible for risk management in the Bank and comprises the Corporate Credit Risk department, the CPM & Retail Credit Risk department, the Problem Loans department, the Stand-alone Market & Liquidity Department and the Stand-alone Fraud & Operational Risk Departments.

The Board of Directors represents a statutory body, including the Bank's executive management, which oversees risk-related issues. The authorities to manage risk are also delegated to the following individual steering committees, which oversee the risks:

- Asset/Liability Management Committee (ALCO)
  Based on monitoring key information on assets and liabilities the ALCO makes decisions and proposes measures in order to optimise the structure of assets and liabilities to achieve maximum profitability of the Bank's own capital within the limits of acceptable risk;
- Risk management committee;
- Monitoring committee;
- Workout committee; and
- Operational risk management committee (ORC).
  ORC has a control, coordination, advisory and decision-making function in the area of operational risk management. It approves the Bank's approach to various areas of operational risk and has an advisory as well as a decision-making function in the management of continuous operations (the so-called business continuity management) and acts as an emergency team in emergency situations.

The Board of Directors delegates its control over risks to the aforementioned committees in the form of statutes where the members of the steering committees, including their competencies and responsibilities, are designated.

The competencies of the advisory and working bodies are specified in the Board of Directors' instruction: "Signature and Competency Order in OTP Banka Slovensko, a.s.". An internal regulation is prepared for each type of risk and defines in detail the competencies and responsibilities of individual bodies of the Bank.

36. Credit Risk

Credit risk is the risk that a client or a counterparty of a financial instrument will fail to meet its contractual obligations, which would expose the Bank to the risk of a financial loss. This risk is predominantly driven by loans advanced to clients, receivables from banks and financial investments. The Bank classifies the level of accepted credit risk using limits for the risks accepted with respect to a single debtor or a group of debtors and with respect to industries.

The credit exposure limit is set based on an analysis of the borrower's ability to repay the granted loan. When analysing credit risks, the Bank takes into consideration the mitigation of risks with collateral instruments and guarantees from individuals and legal entities. The analysis is performed by specialists – loan analysts – who are not involved in the Bank's business activities.

The Bank also evaluates debtors using scoring/rating models developed for individual products and client segments.

Regular monitoring of the quality of the existing loan portfolio and monitoring of trends in the Bank's portfolio form a significant part of risk management that helps maintain the quality of the entire portfolio and the required level of the Bank's risk expenses.

When recovering debts, the Bank applies a wide range of recovery instruments and strategies depending on the type and amount of the relevant debt. For recovery, the Bank applies both internal and external forms of recovery. In the event of the unsuccessful recovery of debts from clients or a failure to conclude an agreement with the client, the Bank performs the hard collection of receivables depending on the collateral type of the receivable and financial conditions of the client, or the assignment or write-off of a receivable (if conditions for writing-off of a receivable are met). Large or specific debts are solved by the Bank's specialised internal team in cooperation with the Legal department and other specialised units.

When monitoring and managing credit risks, the Bank pays attention to concentration and residual risks.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

A concentration risk is a risk arising from the concentration of the Bank's transactions with an individual, a group of economically-related entities, the state, a geographic area, an industry, or a risk arising from credit risk mitigation procedures. Bearing in mind concentration risk management efficiency, the Bank focuses on the quality aspect of portfolio management and appropriate portfolio diversification in compliance with the specified concentration limits (large asset exposure, industry or other limits).

Residual risk means a risk arising from the fact that the recognised procedures for credit risk mitigation used by the Bank are less effective than expected.

Credit Risk Management Organisation
The Risk Division is a business unit managed by the Bank's Deputy CEO, who is a member of the Board of Directors. The division is responsible for reviewing credit risk, including:

- Preparation of the strategies, principles, processes and procedures applied to risk management, which cover the rules for loan assessment, collateral requirements for relevant risk levels and relating reporting;
- Setting limits for concentrating exposure to counterparties, related parties, and countries, and monitoring compliance with the limits;
- Assessment of credit risk in line with the defined principles;
- Monitoring of meeting portfolio quality requirements and compliance with limits, and taking relevant corrective measures;
- Preparation and validation of scoring and rating models;
- Preparation, maintenance and back testing of a provisioning model; and
- Preparation of reports on credit, market and operational risks to be submitted to the Board of Directors and the Supervisory Board.

Provisions
As at the date of the financial statements, the Bank assesses and reassesses provisions for provided loans. The Bank creates provisions based on the calculation of the incurred loss that is calculated as a difference between the carrying amount of a loan receivable and the present value of estimated future cash flows including the flows from realisation of collaterals discounted using the loan interest rate.

The Bank creates provisions representing the best estimate to cover the existing losses in the loan portfolio. Provisions cover estimated loan impairment losses if there are one or more objective proofs of impairment. Objective proof of impairment may include information about major financial difficulties of the debtor, which lead to a loss event and which were identified after the initial recognition of the loan receivable.

The Bank evaluates credit risk on an individual and portfolio basis and records specific and portfolio provisions. The Bank creates specific provisions for individually-significant loan receivables. For a group of loan receivables that are not individually significant or for loan receivables in which impairment has not been identified on an individual basis, provisions are created on a portfolio basis.

Loans assessed on an individual basis comprise corporate receivables without any identified impairment with exposure to a customer exceeding EUR 850 thousand, for which the Bank first assesses, on an individual basis, whether individually-significant objective proof of impairment of financial assets exists. If the Banks decides that there is no objective proof of impairment with respect to the financial assets assessed on an individual basis, such assets are included in a portfolio of financial assets with similar credit risk characteristics and their impairment is assessed on a portfolio basis.

The Bank also assesses, on an individual basis, corporate receivables with identified impairment with exposure to a customer exceeding EUR 200 thousand, corporate receivables in bankruptcy proceeding and in restructuring proceeding under the law and retail receivables with identified fraud, retail receivables secured by immovable assets in bankruptcy and in default for more than 1550 days. The amount of the provision is the difference between the carrying amount and the recoverable amount, being the present value of expected cash flows, including amounts recoverable from guarantees and collateral, discounted at the original effective interest rate of loans as at the processing date.

Provisions for loan losses are assessed with reference to the credit and economic standing of the debtor and take into account the value of all collateral or third party guarantees. Specific provisions are recognised if objective proof confirming impairment of the loan receivable exists, with the impairment occurring after the initial recognition of the loan. Loan receivables for which impairment is assessed on an individual basis and for which the impairment loss continues to be recognised are not included in a portfolio assessment of impairment of assets.

If the Bank identifies that there is no objective proof of impairment of a loan receivable on an individual basis, such loan receivable is included in a portfolio of loan receivables with similar characteristics and assessed for impairment.

The Bank creates portfolio receivables on a portfolio basis using risk parameters for the given portfolio. Portfolio provisions cover losses that have not been individually identified but based on historical experience are inherent in individual portfolios at the reporting date. In the calculation of provisions for portfolio-measured receivables the Bank applies

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

statistical modelling based on the historical portfolio behaviour trends. The calculation of portfolio provisions is based on the probability of default (PD), loss given default (LGD), rate of return (RI) and receivable value. The calculation of provisions is sensitive to a change in input parameters.

Receivables assessed on a portfolio basis include other retail receivables, corporate receivables from mass products (all types of Quick Loans, Solvent Business Card), and corporate receivables with exposure to a customer up to EUR 850 thousand and corporate receivables with identified impairment with exposure to a customer up to EUR 200 thousand.

Individually-significant receivables for which no objective proof of their impairment exists are subject to the measurement on a portfolio basis. In this manner, the Bank measures corporate receivables without identified impairment with exposure to a customer exceeding EUR 850 thousand, ie receivables for which no impairment has been identified on an individual basis. The Bank creates the so-called IBNR provisions for such loan receivables.

Loan receivables which are not individually significant and are assessed on a portfolio basis are classified by the Bank according to the number of days they are overdue and signs of default. Relevant portfolio provisions are created by the Bank.

The Bank adjusts the measurement of loan receivables on a monthly basis as at the reporting date and in the event of an extraordinary or unforeseeable event requiring more attention in terms of risk. In the calculation of provisions, the Bank considers estimated future cash flows to be generated from impaired loans and their timing. These estimates are subject to a number of uncertainties and risks due to the high volatility of external factors affecting the portfolio quality.

The Bank believes that estimates used in the process of quantifying provisions for loan losses, including off-balance sheet exposures (in particular estimates regarding future cash-flows from impaired loans and probabilities of loan default), represent the most reasonable projection of the future development of relevant exposures available under current circumstances. The management considers the recognised amount of provisions to be adequate to cover incurred losses from impaired credit exposures.

The Bank continues to monitor current economic conditions and their impact on estimates used in the loan impairment calculation. All estimates and underlying assumptions are reviewed on an ongoing basis. Adjustments to estimates of loan impairment are recognised in the period in which the estimate is revised if the adjustment affects only that period, or in the period of the revision and future periods if the adjustment affects both current and future periods.

Policy for Writing-Off of Receivables

The Bank writes off its loans and placements once the Bank receives a document on the client's insolvency, the court's decision on discharge of a receivable, after the end of bankruptcy proceedings, if the debtor died and the receivable cannot be recovered from the heirs, or based on a decision of the Bank's management to drop the collection, should the collection expenses exceed the amount receivable, or based on the decision of the Bank's management to write off such receivable if only a minimum or zero amount of proceeds is expected to be recovered over a long period of time and the customer is overdue with the loan repayment by more than 1080 days.

Loan Collaterals

The estimated value of collateral is subject to numerous uncertainties and risks. Amounts that may ultimately be realised on liquidation of collateral for defaulted loans could differ from estimated amounts and the difference may be material. Collateral represents an estimated amount that the Bank would receive upon enforcement of the collateral as a result of a failure to repay the loan.

Collateral fair value is estimated based on the value of collateral when the relevant loan is advanced. Collateral is monitored to review the current value and quality of the collateral in the entire loan period. Individual forms of collateral are subject to revaluation whose frequency depends on the collateral used and the client's segment.

In respect of collateral treatment, the Bank pays special attention to the valuation and revaluation of individual collateral instruments, calculation of accepted collateral value, specification of collateral permissibility for credit risk mitigation and realisation of collateral in case of default of a collateralised loan.

The Bank predominantly accepts the following types of collateral:
- Financial collateral (cash, securities etc.);
- Immovable assets;
- Movable assets; and
- Receivables and inventory.

The Bank uses the following legal instruments:
- Pledge;
- Collateralising transfer of receivables;
- Blocking of cash.

The collateral valuation methodology and collateral revaluation frequency are dependent upon the type of collateral and minimum criteria pursuant to the valid legislative regulations implemented in the Bank's integral regulations. The monitoring of the value of collateral instruments is specific for each type of collateral and the Bank applies an appropriate measure of prudence and conservatism.

The Bank's decision-making in realising collateral is individual and depends on factors such as the current condition and value of collateral, the current value of the receivable, receivable collection speed, costs of recovery etc.

The Bank principally uses the following forms of collateral realisation:
- Voluntary auction;
- Foreclosure proceedings;
- Cash realisation of collateral held in support of the Bank's receivable in bankruptcy or restructuring proceedings;
- Call to subdebtors to pay from pledged trade receivables;
- Enforcement of a bill of exchange in court;
- Assignment of a receivable; and
- Collection through external collection agencies based on a mandate agreement.

Defaulted Loans Portfolio

Defaulted loans represent a portfolio of loan receivables that meet the definition of default. The definition of default is set forth in Article 178 of Regulation No. 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms.

Description of default events (loss events) is included in paragraph "Loans and receivables and provisions for expected losses".

Classification of Risks from Loans and Receivables

31 Dec 2016 (EUR '000)	Exposure	Provisions	Coverage by Provisions	Collateral	Coverage by Provisions and Collaterals
Loans measured on an individual basis, total	**122 562**	**39 421**	**32.20%**	**46 019**	**69.70%**

Analysis of Restructured Loans and Receivables, Gross

Restructuring of a credit liability exists where it will probably result in a decrease of a financial liability for clients with identified financial difficulties due to a waiver or deferral of the settlement of the principal, interest or relevant fees and charges. The Bank may, therefore, modify contractual terms of repayment with their debtors in cases when the debtor's financial position has deteriorated and the debtor is not able to duly repay its obligations.

The following table shows the quantitative analysis of all loan receivables where the Bank identified an event of default "internal debt restructuring" at the end of the reporting period; these receivables did not return from the default status. In addition to the "internal debt restructuring" indicator, these receivables can also be indicated by another default event.

(EUR '000)	31 Dec 2016	31 Dec 2015
Retail loans	**9 056**	**6 600**
Overdue up to 30 days	5 138	3 887
Overdue from 31 to 90 days	1 081	580
Overdue more than 90 days	2 837	2 133
Corporate loans	**28 849**	**26 002**
Overdue up to 30 days	7 869	6 234
Overdue from 31 to 90 days	4 310	4 546
Overdue more than 90 days	16 670	15 222
Total	**37 905**	**32 602**

Information on Credit Quality of Selected Categories of the Bank's Financial Assets

The table below summarises the quantitative distribution of corporate loans assessed on an individual and portfolio basis that are neither overdue nor impaired by rating class:

Rating Class (EUR '000)	31 Dec 2016	31 Dec 2015
Corporate loans		
I (the lowest risk of primary loan recoverability)	17 629	17 976
II	32 911	37 132
III	73 749	68 587
IV	85 603	80 300
V	103 706	115 948
VI	70 532	64 477
VII	28 540	29 083
VIII (the highest risk of primary loan recoverability)	1 735	1 661
Total – corporate loans	**414 405**	**415 164**
Loans granted to local governments		
I (the lowest risk of primary loan recoverability)	2 994	6 089
II	6 960	3 942
III	4 861	6 898
IV	3 664	9 508
V	8	-
VI	2 161	1 922
VII	1 390	2 652
VIII (the highest risk of primary loan recoverability)	21	52
Total - local governments	**22 059**	**31 063**
Total	**436 464**	**446 227**

The table below summarises the quantitative structure of placements with other banks by individual rating category:

Rating Class (EUR '000)	31 Dec 2016	31 Dec 2015
I	-	-
II	-	126 703
III	-	-
IV	-	-
V	-	-
VI	-	-
VII	-	-
VIII	-	-
Non-classified	2	2
Total	**2**	**126 705**

The table below summarises the quantitative structure of available-for-sale financial assets (excl. investments in commercial companies) by individual rating category:

Rating Class (EUR '000)	31 Dec 2016	31 Dec 2015
I	–	–
II	–	–
III	–	–
IV	–	–
V	8 353	8 890
VI	–	–
VII	–	–
VIII	–	–
Non-classified	972	2 896
Total	**9 325**	**11 786**

The table below summarises the quantitative structure of held-to-maturity investments by individual rating category:

Rating Class (EUR '000)	31 Dec 2016	31 Dec 2015
I	–	–
II	84 107	73 643
III	–	–
IV	–	–
V	–	–
VI	–	–
VII	–	–
VIII	–	–
Total	**84 107**	**73 643**

Concentration of Credit Risk to the Slovak Republic

The following table presents the Bank's credit risk to the Slovak Republic, companies controlled by the Slovak government municipalities, and similar exposures:

(EUR '000)	31 Dec 2016		31 Dec 2015	
	Amount	Portion of Total Assets	Amount	Portion of Total Assets
Cash, due from banks and balances with the National Bank of Slovakia	147 272	10.12%	5 101	0.36%
Loans and receivables, net of provisions for possible losses	22 094	1.52%	31 035	2.16%
Held-to-maturity financial investments	73 482	5.05%	73 643	5.13%
Total	**242 848**	**16.69%**	**109 779**	**7.65%**

Concentration of Credit Risk to other EU Member States

The following table presents the Bank´s credit risk to other member states of the European Union:

(EUR '000)	31 Dec 2016		31 Dec 2015	
	Amount	Portion of Total Assets	Amount	Portion of Total Assets
Held-to-maturity financial investments	10 625	0.73%	-	-
Total	**10 625**	**0.73%**	**-**	**-**

Maximum Exposure to Credit Risk

The following table provides an overview of the Bank's maximum exposure to credit risk, regardless of any held collateral or other mitigation of credit risk resulting from financial instruments (assets):

(EUR '000)	31 Dec 2016	31 Dec 2015
Due from banks and balances with the National Bank of Slovakia	150 331	136 311
Financial assets at fair value through profit or loss	6	824
Available-for-sale financial assets, gross	9 331	12 665
Loans and receivables, gross	1 225 468	1 198 022
Held-to-maturity financial investments	84 107	73 643
Subtotal of balance sheet risks	**1 469 243**	**1 421 465**
Guarantees issued	15 838	18 058
Loan commitments to clients	51 110	49 947
Subtotal of off-balance sheet risks	**66 948**	**68 005**
Total	**1 536 191**	**1 489 470**

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

37. Market Risk

The Bank is exposed to market risks. Market risks arise from open positions in transactions with interest rate, foreign exchange, and equity instruments, all of which are exposed to general and specific market changes. The Bank does not undertake any transactions with gold, precious metals or other commodities.

Market Risk Management

The Bank´s principal risks include currency (foreign exchange) risks and interest rate risk.

The Bank categorises its financial instruments into the trading portfolio (trading book) or the non-trading portfolio (banking book) reflecting the purpose for which the financial instruments have been acquired.

The trading book also includes positions arising from selected banking instruments acquired by the Bank with a view to generating short-term profits from the difference between the purchase and sale price. All other positions in financial instruments are carried in the banking book.

The Bank has established maximum exposure limits to selected counterparties (banks). The counterparty limit is split into the credit limit, settlement limit and pre-settlement limit depending on the type of undertaken transactions.

Currency Risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

To analyse foreign currency risk sensitivity, the Bank uses the historical simulation method of Value- at-Risk (VaR) methodology. To calculate VaR, the Bank opted for a 99% confidence level, a one-year historical database of daily EUR/foreign currency movements, and a 1-day time limit. The VaR reflects the potential loss that will not be exceeded in 99% of overnight movements in foreign exchange rates.

The set of currency risk limits consists of the following restrictions in respect of the Bank's open positions:
- Overnight limits
- Intraday limits
- VaR limit
- PLA limit
- Stress test limit and extraordinary stress test limit

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Net Foreign Exchange Position

The table below provides an analysis of the Bank's foreign currency exposures in primary currencies for selected categories of asset and liability:

31 Dec 2016 (EUR '000)	EUR	USD	HUF	Other Currencies	Total
Assets					
Cash, due from banks and balances with the National Bank of Slovakia	174 821	1 205	985	2 652	**179 663**
Placements with other banks, net of provisions for possible placement losses	2	-	-	-	**2**

Liabilities from issued debt securities	34 781	62	-	-	**34 843**
Subordinated debt	20 007	-	-	-	**20 007**
Net currency exposure at 31 Dec 2015	**(2 771)**	**(17 115)**	**120 013**	**338**	**100 465**

As at 31 December 2015, the "Value at Risk" calculated from open foreign currency positions of the Bank was EUR 3 thousand.

Interest Rate Risk

Interest rate risk is the risk that the net current value of financial instruments will change due to changes in market interest rates. An interest rate risk is a risk that the value of a financial instrument will fluctuate as a result of changes in market interest rates and the risk that the maturity of interest-accruing assets will differ from the maturity of interest-bearing liabilities used to finance these assets. Hence, the period for which the interest rate is attached to the financial instrument shows the extent to which this instrument is exposed to the interest rate risk.

In the classification of interest-rate sensitive assets and liabilities by time bands, the Bank uses a statistical model for the classification of deposits without contractual maturity and loans with an administrative (floating) interest rate. The model is based on the calculation of a minimal margin from correlations between market interest rates and the interest rates of individual deposit and loan products.

In monitoring interest rate risk the Bank uses the following limits for the interest rate risk inherent in the trading book and for the interest rate risk inherent in the banking book:

Limits for the Interest Rate Risk Inherent in the Trading Book:

- Trading book position limit
- Duration-position limit

Limits for the Interest Rate Risk Inherent in the Banking Book:

- Interest rate risk limit
- The interest rate risk limit upon a change in the shape of the yield curve for the whole portfolio (jointly the banking book and the trading book)

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Classification of Interest Rate Sensitive Assets and Liabilities by Time Band

The tables below provide an analysis of the selected categories of assets and liabilities by time bands according to interest rate sensitivity. Assets and liabilities that are not sensitive to interest rates are classified as “not specified”.

31 Dec 2016 (EUR ’000)	On Call	Up to 3 Months	From 3 to 12 Months	From 1 Year to 5 Years	From 5 Years and Over	Not Specified	Total

Interest Rate Risk Sensitivity Analysis

An analysis of interest rate risk sensitivity is based on the assumption of a shift of the yield curve by 100 base points during the following 2.5 years (straight-line). Therefore, assets and liabilities with residual maturities over 2.5 years will not have an impact on the Bank's economic value. For a potential decrease in the economic value in the event of a change in the yield curve shape (shift of the yield curve by 100 bp, which will have a linear effect on the yield curve shape within 2.5 years; there is no change in the yield curve shape over 2.5 years) the Bank set a limit of 5% of Tier 1 capital.

In the EUR portfolio, unfavourable movements in interest rates would have a negative impact on the Bank's economic value in the amount of EUR 488 thousand (31 December 2015: EUR 541 thousand).

In the USD portfolio, unfavourable movements in interest rates would have a negative impact on the Bank's economic value in the amount of EUR 35 thousand (31 December 2015: EUR 30 thousand).

In the CZK portfolio, unfavourable movements in interest rates would have no impact on the Bank's economic value (31 December 2015: EUR 1 thousand).

The overall impact on the Bank's economic value in all portfolios (USD, EUR, CZK, and other foreign currencies) represents a decrease by EUR 526 thousand (31 December 2015: decrease by EUR 578 thousand) due to unfavourable movements in all interest rates. When using the same scenario for the trading portfolio, there is no impact on the Bank's profit/loss as at 31 December 2016 (31 December 2015: nil effect).

Other Price Risks

Under the IFRS definition, other price risks represent the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices (other than changes arising from the interest rate risk or currency risks) irrespective of whether these changes are attributable to the factors that are specific for the individual financial instrument or factors affecting all similar financial instruments traded on the market.

Other price risks within the Bank primarily include equity and commodity risks. The Bank is not an active player on the equity or commodity markets and hence other price risks are immaterial.

38. Liquidity Risk

Liquidity risk is the risk that the Bank will encounter difficulties in raising funds to meet commitments associated with financial instruments. The Bank monitors its liquidity based on expected cash inflows and cash outflows and manages the liquidity risk by building highly-liquid assets portfolios.

The net on-balance sheet liquidity position represents the extent to which the Bank may be required to provide funding to settle its liabilities associated with financial instruments. The Bank maintains its liquidity profile in accordance with the requirements of the National Bank of Slovakia. The following tables show an analysis of the assets, liabilities and equity according to their maturities, reflecting the remaining period between the reporting date and the contractual maturity date.

This analysis was prepared on the basis of the most prudent consideration of maturity dates in cases where the repayment schedules facilitate earlier repayment. The assets and liabilities that could not be included into the relevant time buckets according the residual maturity are reported in the 'from 5 years and over' category. Liabilities to clients due within one month principally include current accounts from which the clients are authorised to make withdrawals at call. The Bank's historical experience suggests, however, that these accounts represent a stable source of funding.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.

Cumulative net balance sheet liquidity position at 31 Dec 2016	(593 957)	(708 788)	(810 714)	(479 987)	-	-

The classification of balance-sheet assets and liabilities into time bands per residual maturity as at 31 December 2016 represents a GAP of EUR -594 million in the within-one-month time band (31 December 2015: EUR -489 million). The difference in the residual maturity between assets and liabilities due within 1 month is mainly caused by the classification of all non-term deposits and current accounts of clients into this time band. In line with the estimated maturity based on the standard behaviour of the Bank's clients, the net balance-sheet position of liquidity within one month is positive in the amount of EUR 95 million (31 December 2015: EUR 76 million). The Bank continuously complied with all NBS measures regulating this area in 2016.

39. Operational Risk

The Bank defines operational risk as the risk of loss arising from the inappropriateness or failure of internal processes in the Bank, human error, the failure of systems used by the Bank or the risk of loss arising from external events. Operational risk also includes legal risk, ie the risk of loss primarily due to a failure to enforce contracts, the threat of unsuccessful legal disputes or court rulings with adverse impacts.

Operational risk management is addressed in the Instructions of the Board of Directors entitled "Procedures for Operational Risk Management", which provide guidance on identifying, estimating, monitoring and mitigating operational risks. The Bank's principal objectives and principles in managing operational risks and the method of calculating capital requirements for operational risks are outlined in the "Risk Management Strategy" document. The standalone Fraud & Operational Risks department ensures compliance with the operational risk management requirements, processes and techniques and coordinates the development of basic principles and the development and maintenance of consistent methodology for identifying, monitoring, assessing and mitigating operational risks.

The Bank's objective is to map operational risks in all processes and business activities and, based on an understanding and analysis thereof, to adopt effective measures to mitigate the impacts of operational risks and to improve process quality while sustaining the Bank's competitiveness. The key aspect of the operational risks management system is an active cooperation between process owners and all organisational units of the Bank, wide awareness, communication of information and understanding of the tasks assigned. The Bank has strictly-defined competencies and responsibilities for the respective work procedures in the operational risks area.

The Operational Risk Management Committee is responsible for coordinating the operational risk management system. Operational risks reports are regularly submitted to the ALCO, the Bank's and parent company's managements and the regulator. Undesired disruptions of the Bank's activities and protection of critical processes from the consequences of serious errors and unforeseen events are covered by the Bank's business continuity plans.

In the regular self-assessment process, the Bank analyses significant sources of risk that the Bank is facing, identifies new risks and estimates the impact and likelihood of the origin thereof. The Bank adopts measures to mitigate and eliminate operational risks while considering efficiency and cost effectiveness of proposed measures in respect of the respective process efficiency. In addition to the self-assessment of risks, the Bank uses also other instruments for the operational risk management, such as the system of Key Indicators of Risk and Scenario Analysis.

Based on prior approval granted by the NBS to use the Advanced Measurement Approach and Operational Risk Management (AMA), the Bank as a member of the OTP Group has been calculating the capital requirement to cover operational risk using an advanced approach and the Group model since September 2015. All internal and external data, business environment factors and scenario analysis results are entered in the model.

40. Earnings/(Loss) Per Share

The earnings/(loss) per share attributable to ordinary shares of the Bank are computed as net profit for the relevant year attributable to the ordinary share-holders divided by weighted average number of ordinary shares outstanding during the year as follows:

	Note	31 Dec 2016	31 Dec 2015
Profit/(loss) (in EUR '000)		(3 021)	2 954
Profit/(loss) for the reporting period attributable to ordinary share-holder (in EUR '000)		(3 021)	2 954
Profit/(loss) per share			
At face value of EUR 3.98 (in EUR)		**(0.136)**	**0.133**
Weighted average number of ordinary shares	18	11 503 458	11 503 458
At face value of EUR 39 832.70 (in EUR)		**(1 359.05)**	**1 329.11**
Weighted average number of ordinary shares	18	570	570
At face value of EUR 1.00 (in EUR)		**(0.034)**	**0.033**
Weighted average number of ordinary shares	18	20 050 705	20 050 705

41. Distribution of Profit for the Previous Reporting Period

The General Meeting of OTP Banka Slovensko, a.s. was held on 7 April 2016. The General Meeting approved the separate financial statements for 2015 and the distribution of profit for 2015 as follows:

Distribution of the profit for 2015 (EUR '000)	
Profit/(loss) for 2015 – profit	2 954
Use:	
- Legal reserve fund	*295*
- Retained earnings from previous years	*2 659*

42. Proposed Settlement of a Loss for the Current Reporting Period

Proposed settlement of the loss for 2016 (EUR '000)	
Profit/(loss) for 2016 – loss	(3 021)
Settlement:	
- Retained earnings from previous years	*(3 021)*

The proposed settlement of a loss for 2016 is subject to approval by the General Meeting of OTP Banka Slovensko, a.s.

43. Events After the Reporting Date

No other significant events occurred between the balance sheet date and the authorisation date of the financial statements for publication that would require an adjustment or additional disclosure.

These notes are an integral part of these separate financial statements. This is an English translation of the original Slovak language document.
